Mr. John Jarrett
Jarrett Construction Services
1605 Virginia Street, East
Charleston, WV 25311

Dear Mr. Jarrett:

At the conclusion of every SBA construction project, contractor performance is evaluated. I have discussed your contractor evaluation with representatives of Raleigh County and our SBA field representative with regards to your performance on the Shady Springs Middle School Addition. Raleigh County and Scott Raines our field representative were both pleased with the work performed on this SBA project.

The project required a coordinated effort between your company and the school to construct the addition and protect the students and staff during construction. This type of project also required minimal disruption of the school day. Your efforts to address these important issues and construct the addition on time were commendable.

We also were appreciative of your prompt attention to resolving the problems that tend to occur during all construction projects and your cooperation and timely resolution of these matters as they occurred. As you are aware, we can not endorse one contractor over another. However, we are pleased to provide an evaluation of your company's work on the recently completed SBA project at Shady Springs Middle School. We look forward to working with you on future projects.

If you have any questions regarding SBA school construction project that will be bidding in the future please feel free to contact our office. Good luck on your future projects.

Sincerely,

A handwritten signature in black ink that reads "David P. Sneed".

David Sneed, Chief of
Architectural Services
