Re: Sacred Heart Gymnasium and Daycare Project

Dear John:

Once again, I wish to thank you for your extraordinary efforts on behalf of my client, Basilica of the Co-Cathedral of the Sacred Heart, during the construction of our gymnasium and daycare project. Through your determination and professional skill, we were able to bring this project in on budget and on time. Your introduction of the ICF structure system allowed us to work through the winter months and greatly added to the building's structural integrity while reducing its operating costs.

I wish to particularly commend Chad Justice, the project manager, and Wayne Anderson, the project superintendent, for their efforts in the successful completion of this building. I have worked with many contractors over the last forty years of owning and operating seven downtown office buildings and several hundred apartment units and find Chad and Wayne to be two of the most professional construction project staff members that I have ever dealt with.

John, I particularly appreciate your detailed concern with my client's financial and time constraints and have always been comfortable that you will keep our projects, as you have with this one, well within my client's guidelines.

This building has been a wonderful addition to our Basilica and the City of Charleston and has met a significant need for childhood care of this age and provided much needed space for our growing school basketball program.

I would recommend you without hesitation for other Diocesan projects, as well as for other client projects.

I know I can speak on behalf of the several thousand members of Sacred Heart in commending you on the successful completion of this facility.

Best personal regards.

Very truly yours,

Ralph W. Hoyer
