RE: Moses Automotive Outlet
Teays Valley

Dear John,

It was a pleasure to work with Jarrett Construction Services on the new Moses Automotive Outlet in Teays Valley. The professionalism demonstrated by your personnel during this project allowed the project to be completed on time, on budget, and with minimal construction administration efforts on our part. Communication between Owner, Architect and Contractor eliminated any misunderstandings. The intent of the architectural design and the Owner's expectations were met not only met but exceeded. Post completion follow-up appears to have taken care of any potential punchlist and warranty items to the Owner's satisfaction.

The performance by Jarrett Construction Services on this project has put us in a position to recommend your company to other clients. I look forward to additional successful projects in the near future.

Sincerely,

John Harris
