

## Integrating Safety into Agritourism

### Getting the best from this website...

Determine which topics are pertinent to your farm.

#### All Farms should review these topics:

##### Walkthroughs

-  Emergency Prep
-  Traffic & Parking
-  Handwashing & Restrooms
-  Barriers & Fences
-  Walkways, Surfaces & Structures

##### Informational Pages (Menu Links)

-  Communicating with Guests
-  Insurance Information

#### Choose topics for activities on your farm:

##### Walkthroughs

-  Corn Mazes
-  Food Safety
-  Hayride Safety
-  Machine Safety
-  Play Areas
-  Petting Zoo
-  Large Animals
-  Farmers' Markets
-  Water & Attractive Nuisances
-  Inflatable Rides

Once you have determined the topics pertinent to your farm, follow these steps and use the “Topic Checklist” to track your progress.

1. Review the walkthrough (or informational pages) on your topics to learn about safety best practices/guidelines and how to identify safety hazards.
2. When you reach the end of the walkthrough, print the checklist. While walking through your farm, fill out the checklist, which will help you identify and document which safety strategies you have in place, and which you need to implement.
3. Visit the resource page, where you will find signs, policies, logs or other resources to help you address the safety issues you identified with the checklist. Use these free resources to address the safety issues, enter the date “fixed” on the checklist and keep for documentation purposes
