Thank you for your interest in ProjectReady, LLC., ("ProjectReady") and our website located at http://project-ready.com (the "Website") and our associated service. Your use of the ProjectReady service, through the Website or otherwise, is subject to this Privacy Policy. Our service and Website are collectively referred to in this Privacy Policy as the "Service." We are pleased to provide this privacy policy to inform you of our practices with respect to how we collect and use personally identifiable information in connection with your use of the Service.

Information We Collect

The data that we regularly collect about visitors to the Website (e.g., IP address, browser type, pages accessed, duration of visit, etc.) does not necessarily enable us to personally identify you, and that is not our intention. We do collect personally identifiable information about you, such as your name and phone number, when you voluntarily provide it by registering with us or using the Service. Once you become a user, you may provide additional information in your profile section. Providing additional information is optional. To facilitate your use of the Service, ProjectReady may automatically collect certain types of information when you access or use the Service. In order to collect this data, ProjectReady may utilize automated tools and files such as "cookies." These automated tools and files may reside on our servers or on your computer or device. If you restrict our ability to use automated tools and files, your ability to access and use all or part of the Service may be limited or disabled completely.

Use of Information

ProjectReady uses your personally identifiable information primarily to provide you with the Service and to provide customized content on the Service that is of interest to you. The information is also used to verify your authority to access the Service and to contact you when reasonably necessary. ProjectReady may also use any information you have provided as reasonably necessary to administer or provide customer support for the Service, and to provide you with periodic printed or e-mail communications about new products and services, discounts, special promotions or upcoming events. You may opt-out of receiving some or all non-Service related communications by updating your profile on the Service. Also, your full name and email address may be used when you use the Service to send a message to another user. Additionally, we use your email address to contact you on behalf of other friends on the site (such as when another user sends you a message).

Disclosure

ProjectReady will disclose your personally identifiable information as it believes is reasonably necessary to comply with law, regulation or other governmental authority or to prevent harm to yourself or others. ProjectReady may also contract with various third parties who help us provide and maintain the Service. For example, we use a third party to process payments made to us, and may subcontract out production, fulfillment, or other operations. In these cases, we will use commercially reasonable efforts to prevent such third parties from disclosing your personal information, except for the purpose of providing the services in question. Additionally, as part of the Service, ProjectReady will make your profile information available to other users of the Service. Finally, ProjectReady may disclose your personally identifiable information upon a transfer or sale to another entity of all or substantially all of ProjectReady stock or assets in ProjectReady's line of business to which this Privacy Policy relates or upon any bankruptcy or other corporate reorganization.

Because any personally identifiable information you submit to ProjectReady is purely voluntary and should not be of a particularly sensitive nature, we employ our standard security measures with respect to this information and do not use special encryption methods at this time. ProjectReady user accounts are secured by user-created passwords. Please note that ProjectReady cannot guarantee the security of user account information. Unauthorized entry or use, hardware or software failure, and other factors may compromise the security of user information at any time.
