Dear Customer:

Cablecraft Motion Controls is continuing to monitor the spread of the Coronavirus (COVID-19). As a result of this outbreak, we want to address any concerns you may have about our supply chain risk and our ability to maintain a continuity of supply for our customers.

We are actively monitoring the health and well-being of all our employees at our facilities worldwide.

Cablecraft Motion Controls has an established global supply chain. The impact from this global event to date is minimal. In the event the impact of the virus extends further, and factories are unable to reopen for a number of weeks, there could be potential delays. Please keep in mind that we will do all we can to minimize disruption and expedite efforts should it be required. In the meantime, we will be monitoring events closely.

We are working collaboratively with our facilities and vendors around the globe to ensure our customers continue to receive the high level of service they expect from us.

We will provide further updates in the coming weeks.

Sincerely,

Cablecraft Motion Controls
