

# New iOS App

Honeywell Total Connect™ Remote Services

**Honeywell**

## Enhanced Connected Home Experience on iPad®!

A complete redesign for the iPad, iPad mini and an enhanced experience for the iPhone® user. iPad benefits deliver all of the power and capability of the Honeywell Total Connect website to Apple iPad and iPad mini devices.

### Consumer Advantages:

- Same user experience as being on your PC
- New navigation bar for easy access to all control and set-up functions
- Expanded Arming/Disarming screen – One touch operation in single view
- Video viewer displays camera Wi-Fi® signal strength to help diagnose connection health
- Streamlined navigation tabs and buttons for intuitive operation
- Revised event viewer for all security functions
- Takes advantage of widescreen resolution
- Displays five-day weather forecast

### Dealer Advantage:

- No need to configure through PC or MAC
- Portable and simplified set-up of video analytics and detection areas with built-in help guides
- Logical layouts with all functions on one screen
- Wi-Fi signal strength indicators on all configured cameras improve installation efficiency
- Create/edit custom scenes automating lights, locks, shade and thermostats from single screen

**iPhone benefits:** Improves live video viewing by supporting landscape rotation and Wi-Fi signal strength indicators for Honeywell Total Connect cameras.

*The new app works with compatible Honeywell security systems with a subscription to Honeywell Total Connect Remote Services.*

*Users will automatically receive notice through the App Store that an update is available. For devices with iOS7 the update may be installed automatically, depending upon the device's settings.*
