The Commonsense Childbirth School of Midwifery (CCSM) mission is to provide quality, practical, and culturally sensitive midwifery training and education, that will prepare midwives of caliber who can represent themselves and their profession in any arena. We aim to inspire our students to become perinatal leaders in the maternal child health field, willing to provide access to respectful maternity care for all communities with an emphasis on eliminating health disparities through the education and empowerment of women and families so that they can once again safely experience 'their birth, their way'.
