

NetX Training Courses Datasheet

Delivered by Accredited Engineers

NetX delivers live instructor-led Symantec and Veritas training courses. Our **high-quality** information security and information management training courses are designed for system administrators, managers, operators, developers, and end-users who need to get the job done. Our training classes consist of in-depth presentations and hands-on experience followed by lab access and direct assistance from our **Master Accredited Engineers**.

Attend from your home, office and eliminate travel costs.

All training classes are **Guaranteed-to-Run!**

NetX interactive training classes are virtual allowing smaller class sizes for maximum interaction. 24-hour access to your dedicated training environment allows each student to practice labs at their own pace.

NetX Master Accredited engineers also perform Health Checks and custom Knowledge Transfer in a customer's environment to complement your Training or regularly in-place of classroom training. In addition to architecting and deploying highly reliable environments, we help our customers optimize processes, implement security, and integrate with industry-leading cloud providers. For inquiries, email sales@netxinc.com for any of these additional Professional Services.

Advantages of Training Courses provided by NetX

Guaranteed-to-Run: NetX never cancels.

Instructors strive to make NetX #1 in customer satisfaction.

Instructors are experts with deep, real-world product knowledge.

Interactive courses are online, you can attend from anywhere.

Virtual training courses conveniently saves time and travel costs.

Instructors keep your IT team current and confident.

Students gain real-world skills and experience in a hands-on setting.

Dedicated labs are available 24 hours a day.

Private courses of 5 or more with special pricing available.

Flexible dates are available for both virtual and private courses.

Endpoint Detection and Response 4.2 Administration course is designed for the IT security professional in a Security Operations role. This class covers how to detect, investigate, remediate, and recover from an incident using Symantec Endpoint Detection and Response. **SKU: 00034556**

Symantec Endpoint Encryption 11.2 Install, Configure, and Deploy course is designed for the network, IT security, systems administration, and support professional tasked with maintaining and troubleshooting a Symantec Endpoint Encryption (SEE) environment. **SKU: 00032936**

Symantec Blue Coat SSL Visibility 5.0 Administration course enables you to plan, implement, configure and managed your SSLV appliance(s). **SKU: 00033300**

Symantec CloudSOC Administration R2 course provides an overview of the CloudSOC service, covering initial setup, deployment options and service configuration. **SKU: 00032852**

Content Analysis 2.2 Administration course is designed for the network, IT security, and systems administration professionals in a Security Operations position who are tasked with implementing and managing the malware web filtering features of Content Analysis 2.x. **SKU: 00032375**

Symantec Data Center Security Server Advanced 6.7 Administration course is an introduction to implementing and managing a Symantec Data Center Security: Server Advanced 6.7 deployment. **SKU: SC1410**

Symantec Data Center Security Server Advanced 6.7 Diagnostics and Troubleshooting course is an introduction to implementing and managing a Symantec Data Center Security: Server Advanced 6.7 deployment. **SKU: 00032476**

Symantec ProxySG 6.7 Advanced Administration course is intended for IT professionals who wish to learn to master the advanced features of the ProxySG. **SKU: 00034498**

Symantec ProxySG 6.7 Basic Administration course is an introduction to deployment options and management of the individual key features offered using the ProxySG 6.6 solution. **SKU: 00034497**

Symantec ProxySG 6.7 Diagnostics and Troubleshooting course provides a structured approach to diagnosing common troubleshooting issues related to ProxySG deployments. **SKU: 00034518**

Symantec Management Center and Reporter for ProxySG R1 course provides a detailed exploration of the Symantec ProxySG's integration with Management Center and Reporter to provide simplified administrative overhead and increased visibility in Secure Web Gateway deployments. **SKU: 00033109**

Symantec PacketShaper 11.9.1 Administration course is intended for IT professionals who wish to develop the knowledge and skills to manage an installed Symantec PacketShaper on a daily basis. **SKU: 00032067**

Symantec Identity and Authentication Services R1 course is designed for the IT security professional needing to develop an understanding of the principles and use cases behind the Symantec VIP

Service and VIP Access Manager. **SKU: 00032225**

Symantec Web Isolation Administration R1 course is intended for IT professionals who wish to develop the knowledge and skills to manage an installed Symantec PacketShaper on a daily basis. **SKU: 00033110**

Symantec Messaging Gateway 10.6 Administration course is designed to provide you with the fundamental knowledge to configure and administer the Symantec Messaging Gateway. **SKU: 00032312**

Symantec Web Security Service Core Administration R1 course is intended for IT professionals who wish to develop the knowledge and skills to manage an installed Symantec PacketShaper on a daily basis. **SKU: 00033036**

Symantec Control Compliance Suite 12.0: Administration course is designed for professionals who are tasked with ensuring the security of their computing enterprise and compliance with both external and internal mandates. **SKU: SC00033197**

Symantec Control Compliance Suite Vulnerability Manager 12.0 Administration course is designed for the IT security professional tasked with installation, administering, monitoring and reporting on CCS-VM 12.x. **SKU: 00032179**

Web Security Service Planning, Implementation, and Administration R1.1 course is intended for IT professionals who will be planning, installing, configuring or administering the Symantec Web Security Service (WSS). **SKU: 00034380**

Veritas educational training credits are ideal for organizations or individuals who want to purchase training units up front and enroll when they identify a training need. Customers can redeem units for training from Veritas and Veritas Authorized Training Partners as their training needs arise. **SKU: VERTC**

<https://netxinc.com/veritas-training-credits/>

Veritas APTARE IT Analytics 10.3: Administration Training course teaches the general principles, deployment, configuration, and management of APTARE IT Analytics, how to best utilize it for comprehensive IT analytics, and to deliver actionable insights through a singlepane-of-glass across on-premises, hybrid, and multi cloud environments. **SKU: 00003627**

Veritas Access 3340 Appliance 7.4.2: Administration course is designed for IT professionals tasked with designing, installing, configuring, and maintaining Veritas Access Appliance environments. **SKU: 00003225**

Veritas Data Insight 6.1: Administration course is designed for the storage administration, IT security, and systems administration professional tasked with architecting, implementing, administering and using Veritas Data Insight. This class covers how to design, install, configure, administer and maintain Veritas Data Insight. **SKU: DP0095**

Veritas NetBackup 8.3: Administration course provides the IT professional with the general principles, configuration, and management of NetBackup, including how to: best utilize the NetBackup tools and interfaces, effectively monitor backup operations, and ensure data recovery

objectives are met. **SKU: 00005228**

Veritas NetBackup 8.3: Advanced Administration course provides advanced NetBackup topics, including NetBackup performance, security, disaster recovery, application and database protection on physical and virtual machines, and protecting data backed up to and from the cloud. **SKU: 00006069**

Veritas NetBackup 3.2 Appliances: Configuration and Management course provides IT Professional who is new to appliances and is responsible for configuring the 5240 and 5340 appliances, performing appliance maintenance tasks, operating and managing the appliance, and troubleshooting the appliance. **SKU: 00004081**

Veritas NetBackup 8.2: Maintenance and Troubleshooting provides IT professionals with instructions on troubleshooting Veritas NetBackup software. This course covers general error detection tools and troubleshooting methodologies. **SKU: 00003754**

Veritas Enterprise Vault 12.3: Administration course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault within a Microsoft Exchange environment. **SKU: 00002810**

Legal Discovery Using Veritas Enterprise Vault 12.2 Discovery Accelerator course is designed for those who use Discovery Accelerator to search, review, and prepare archived items in support of information requests. **SKU: DP0096**

Veritas InfoScale 7.4.2 FUNDAMENTALS for UNIX/Linux: Administration course is designed for the IT professional who wants an overview of the Veritas InfoScale

Storage and Veritas InfoScale Availability products. **SKU: 00004967**

Veritas InfoScale AVAILABILITY 7.4.2 for UNIX/Linux: Administration course is designed for the IT professionals tasked with installing, deploying, configuring, and maintaining Veritas Cluster Server (VCS) clusters. **SKU: 00004930**

Veritas InfoScale STORAGE 7.4.2 for UNIX/Linux: Administration course is designed for the r IT professionals tasked with installing, configuring, and maintaining Veritas InfoScale Storage environments, including Volume Manager (VxVM), File System (VxFS), Cluster File System (CFS), and InfoScale support for Cloud environments. **SKU: 00004806**

Veritas eDiscovery Platform 9 For Administrators training course is designed for legal professionals that perform Electronic Discovery on Electronically Stored Information. **SKU: 00002444**

Veritas eDiscovery Platform 9 For Users course is designed for legal professionals that perform Electronic Discovery on Electronically Stored Information. **SKU: 00002446**

Veritas Flex Appliance 5340: Administration course is designed for IT professionals who are responsible for deploying, configuring, operating, managing, and maintaining Veritas Flex appliances. **SKU: 00003221**

Veritas Resiliency Platform 3.1: Administration course is intended for the IT professional tasked with designing, installing, configuring, and maintaining Veritas Resiliency Platform (VRP) in multiple Enterprise Data Centers and multi-cloud environments. **SKU: HA0394**
