

AGILE RECORDS

Intelligent Workflow for Police
Record Checks and Reports

**Fastest System
on the Market**

**Unique RMS
Integration**

**50% less
In-person
Traffic**

**Flexible,
Easy to Use**

- Proven 200% boost in records unit productivity
- Fast Response improves public satisfaction
- Reduces backlogs and wait times
- Seamless RMS, CPIC, PIP access
- Niche™ or Versaterm™ RMS compatible
- Work allocation, scoring and decision making
- Public submits and receives electronically
- Supports both online or in-person applicants
- Online turn-around in minutes, 90% of the time
- Auto-scheduling of in-person appointments
- Unified 'single view' eases staff decisions
- Tailored to your unique police needs
- End-to-end electronic document management

'Police Eyes Only' Security and Privacy

- Only police access private data
- No data is seen by or resides within 3rd party networks
- Data is owned by police within police firewalls

'Flag-and-Tag' Auto-Categorization

- Prioritizes results for optimized work allocation
- 'No-hit' fast-track queues and 'hit' set asides
- Dynamic disclosure and fingerprint alerts
- 'Work-in-progress' status

'Audit Trail' Electronic History

- Actions, decisions, approvals history
- Workload visibility
- Progress tracking
- Financial reconciliation
- Archives e-Files
- KPI analytics

'Digitally Signed' Results and Reports

- Tamper-proof electronic distribution by email
- Streamlines applicant's sharing of results with employers or groups
- 'Snail mail' option

Adopted by several of Canada's largest police services
