"SCIENCE OF SUCCESS" SPEECH BY STEVE MARABOLI FIRES UP CROWD AT USF

Tampa, FL, October 23, 2018 -- Attendees at the University of South Florida last week discovered first-hand the power and insight of speaker Steve Maraboli as he examined recovery and success during "THRIVE The Science of Success." The event was sponsored by USF's Student's in Recovery and Tampa-based Clean Recovery Centers.

Many in the audience were hearing Maraboli, a famed Behavioral Scientist and life-changing speaker, for the first time. Now a partner with Tampa-based Clean Recovery, he shared his insights and methodologies on mindset, behavior, and the science of success.

As Justin Haugland, President of USF Students in Recovery, noted, "We were excited to have Steve here and grateful to enjoy what was a rare public talk by him."

Maraboli has gained international fame by helping high-profile clients and top organizations reach exceptional levels of success. The audience's enthusiastic response following the presentation was typical of the impact this well-known consultant has received everywhere he speaks.

Clean Recovery Centers is located at 508 West Fletcher Avenue in Tampa, Florida. For information, contact 888-330-2532 (CLEAN) or info@cleanrecoverycenters.com.
