

# CONNECTING THE CHURCH IN MISSION

Hello everyone!

I am Charles Irung a Irung and I am a Global Mission Fellow from Congo Serving in Cambodia with Community Health and Agricultural development (CHAD)

CHAD is a development program as a mission initiative being implemented by the General Board of Global Ministries of the United Methodist Church and the Methodist Church In Cambodia (MCC)

The current impacts of Climate change have only increased the vulnerability of the poor Cambodia causing a two-steps behind to many developments efforts in the country. CHAD's aim is to improve health, well-being, food and economic security of individuals, families and rural communities by working through the Methodist Church in Cambodia through different projects.

## Please Pray for

- My second part of my mission service here in Cambodia. May God grant me health, peace and joy on this journey
- This Christmas season. May we continue to share love and joy with the needy
- Cambodia and the Church that God will strengthen the leaders and guide them

Christmas Greetings!

I am serving as Agriculture and Food Security Adviser/Trainer. My main duties are but not limited to support community facilitators in implementing food security projects that include poultry farming and home gardening but Cambodia has given me a unique opportunity to share God's love and Engage with the people.

Cambodia has an active youth community both in the Church and in the Community. God has been so good to me during my time of service here as I have been able to engage with them through sports, mainly Soccer and was given the privilege to be a Soccer Coach. It is always fun playing with these young people full of energy and joy!

I am grateful and thankful to God and to the Cambodian Methodist Bible School in entrusting me as one of their volunteer English Teacher.
