

IWAKI PUMPS AUSTRALIA

Solutions for chemical handling applications

E SERIES SOLENOID METERING PUMPS

- Economical Multi Voltage design
- PVC, PVdF, GFRPP and 316SS main materials
- Flows to 75L/hr and pressures to 17 Bar
- On / Off, STOP, Pulse Proportional and 4-20mA control
- Automatic degassing models

IX SERIES DIGITAL METERING PUMPS

- Brushless DC stepper motor design for almost constant injection across large turndown
- Highly accurate, energy efficient multi voltage design
- PVdF and 316SS main materials
- Flows to 300L/hr and pressures to 17 Bar
- On / Off, STOP, Pulse Proportional and 4-20mA control
- Diaphragm Rupture and Motor Overload safety features with alarm outputs as standard

MOTORIZED METERING PUMPS

- Mechanically or hydraulically actuated diaphragm type
- Flows to 3,096L/hr and pressures to 350 Bar
- Accuracies to +/- 1%
- Safety options include internal pressure relief valve and diaphragm rupture detection

SEAL-LESS MAGNETIC DRIVE PUMPS

- Fully non-metallic models in GFRPP, CFRETFE and PFA main materials
- Metallic options of 304 and 316SS
- No seal, no leak technology
- Self-priming option
- Flows >300m³/hr
- Heads >100m

IWAKI PUMPS
AUSTRALIA PTY LIMITED

WATER TREATMENT CONTROLLERS

- One click live connect
- Real Time data
- Alarm status
- Analysis, troubleshooting, adjustments
- Access and permission management
- All accounts on a single page
- No set up or ongoing fees to host and store your data
- Free software updates

ADDITIONAL SPECIALITY PUMPS

Yamada AODD Series

- Air operated double diaphragm pumps
- ¼" (5mm) to 3" (80mm)
- Patented industry leading fully non-lubricated air valve
- Rugged bolted construction

ALH Series Hose Pumps

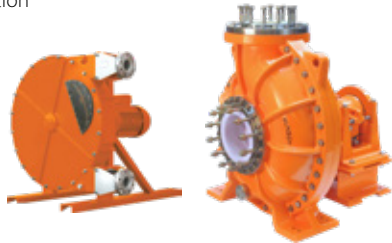

- Hose Pumps with flows to 150m³/hr and 15 Bar
- Unique hose design delivers extended hose life
- Self-priming to 9.8m

Munsch Mechanically Sealed Pumps

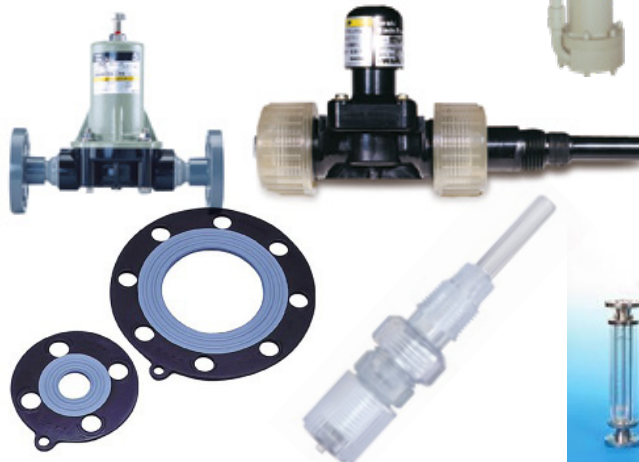

- Designed for aggressive liquids with trace solids
- Fully non-metallic with PP, PE, PVDF and PFA main materials
- Vertical or horizontal design
- Flows to 3,000m³/hr with heads to 100m
- Industry leading seal design. Bi-directional, self-loading with no special tools required
- Laser alignment not required

Drum Pumps

- PP, CPVC, PVdF and 316SS main material
- 240V variable speed, hazardous area and air operated motors
- Decanting 1,000L IBC or 200L drums

ACCESSORIES

PACKAGED DOSING SYSTEMS

- Full In-House design and fabrication capabilities
- Free standing, banded or enclosed cabinet options

NSW Head Office
IWAKI PUMPS AUSTRALIA
