

ATTN Golf Course Superintendents!

What are golf courses known for? Their beautiful grasses. And it takes a lot of upkeep to keep them that way.

That's why you go Regal.

Regal's golf products cater to exactly what you need, whether it's a granular or liquid product, insecticide or quick greening, or even just a simple fertilizer.

We know what it takes to host one of the most beautiful and relaxing scenic sports, and Regal is here to help.

Contact us about our Regal Agronomic Program, a year-round program that caters to individual budgets and issues to create a better overall experience, with year-round continuous upkeep.

The Regal Agronomic Program covers all of your golf course's issues such as turf grass health, fertility and weed control. Our program will help you save money on the cost of treatment and cost of labor to care for turf.

Regal's Agronomic Program covers your golf course needs for a stunning course at affordable rates. Contact us now to discuss your golf course needs: <http://www.regalchem.com/contact-us-2/>
