

Aspen Dental: Six Locations

PROJECT DESCRIPTION

Client: Aspen Dental

Location: Throughout U.S.

Surface Area: 3,500 sf each

Year Completed: Ongoing

Our work with Aspen Dental draws on both our retail center and healthcare expertise. Aspen Dental locates clinics within retail centers to fulfill their mission to make dental care more accessible.

We focus on building modern dental facilities that are welcoming to patients, create efficient workflow for clinic staff and honor Aspen Dental's branding.

We complete the building shell and interior finishes for each clinic within a typical fast-track schedule of 16 weeks from shovel to opening.

To date, we have built multiple clinics throughout the Continental U.S.
