DAV AND DATE

I verify that my child has been enrolled with the center for a minimum of one year and I am choosing to use my one-week vacation tuition credit at this time. I understand the credit is based on my child's enrollment (3 or 5 days per week) and that vacation credits may only be used at one time, not spread out over several weeks or months, and only one week per year will receive a tuition credit. A year of attendance is based on my child's enrollment date. I also understand that the credit will not be applied to my account until after the vacation has been taken.
