

## CLIENT COMMENTS

Don't take our word for it, hear it from our clients:

*"For over four years, we've teamed with NetCenergy and its eNCompass managed-service program. While our network had previously been supported by a local firm, that company was acquired by a larger firm and the promised advantages never materialized. We found that our former IT company had us reacting to sudden problems instead of providing proactive support.*

*After switching to NetCenergy, we've received services we never knew we could get under a managed-service plan. We found the staff to be highly competent and, over the years, they guided us to sensible, cost-effective IT solutions. One of the best features is interfacing with all our IT vendors for us – from phones to photocopier machines. Another is helping us set realistic annual and multiyear IT budgets.*

*We are very satisfied with the quality of their service and the long-term relationship we have developed."*

Benjamin Scungio, Law Firm Managing Partner  
Brennan, Recupero, Cascione, Scungio & McAllister, LLP

*"The quality of service we get from NetCenergy is top notch. We feel that NetCenergy is part of our team and that we can call them anytime."*

Susan Ciorlano, Manager of Administrative Service  
PACE Organization of Rhode Island

*"After our systems were installed, it's not like NetCenergy went away. Their level of engagement and involvement with us is just as significant today, a year into the relationship, as it was after the first month."*

David Birkins, COO  
Rhode Island Infrastructure Bank

*“Our company has been using NetCenergy for a number of years for servicing our network, personal computers, and servers. NetCenergy’s team does an excellent job supporting our 20-plus users and they are always punctual if needed to come on site.*

*All support calls are handled with a great deal of urgency and you can count on getting answers in a timely manner. Their technicians are a pleasure to work with and are very knowledgeable.*

*Businesses survive on systems that are up –and-running. My experience with NetCenergy is that if you have a problem with hardware or your network, they will be there to get you back up-and-running as quickly as possible.”*

William Ptak, Director of Information Technology  
L'image Inc

---

*“NetCenergy is an integral, trusted partner and we are working closely with them on tech integration and improvements (on many levels) – we look to them as our experts, they know our business, and can present us with solutions individualized to how we ‘do business.’”*

Tara Quinn, Operations Manager  
Women’s Development Corporation / Housing Opportunities Corporation

---

*“I couldn’t sleep at night if I knew our network wasn’t secure, and that’s [what] NetCenergy does – it gives us that peace of mind that our network is really as impenetrable as it could be.”*

Peter Regan, Esq.  
Partner, Sayer, Regan, and Thayer, LLP

---

*“Once again, thanks for all the support... above and beyond what I could expect from a partner!”*

Jim Souza, IT Manager  
Rhode Island Textiles

---

*“I can sleep at night knowing that our systems are protected and available.”*

Chris Tribelli, Chief Operation Officer  
American Aerial

---

*“The training provided to our staff has been invaluable.”*

Richard Morrocco  
Partner, Charland, Marciano & Company
