

# Group Peer Review Form

**Title of Project or Group Name** \_\_\_\_\_

Please evaluate **all members of your team including yourself** with respect to the following criteria.

- A. Rate each person's contributions **including your own** on a scale of **v** to **vvv**. With **v** being few if any contributions; **vv**, a reasonable level of contributions; and **vvv**, being above the expected level of contribution.
  
- B. In the space marked total **points distribution** assign points **to each member, including yourself**. **Divide XX points** among all members of the group. The points each member receives should reflect his/her overall contribution to the project. For example, if there were 30 peer review points and there are three members of the group and each contributed equally each member might get, 10 points. If one member contributed more they might get 13-15 points and a member who contributed less, 5-7 point. **The total number of points distributed must add to 30.**
