

Breast Imaging Radiologist, Full or Part-Time in Southeast and Mid-Michigan

Progressive, radiologist-owned, outpatient imaging center looking for a fellowship-trained full or part-time Breast Imaging Radiologist to join our team.

At **Regional Medical Imaging** we work hard to create a unique environment, not just for our patients, but for our associates. Team members are guided by our core values of integrity and respect, with a constant focus on our customers, both referring clinicians and patients. Our approach to patient care includes personalized service that is delivered in facilities that are more home-like than clinical.

We offer digital mammography, breast MRI, tomosynthesis, breast ultrasound, and stereotactic, ultrasound biopsies. We are looking for a fellowship-trained Breast Imager who believes in our core values and understands the value in putting customers first. This is a part-time or full-time position, for a radiologist certified by the American Board of Radiology, will allow you to become a key player in our growth. You will have the opportunity to interpret all types of radiology studies, including breast imaging; and perform breast and light interventional procedures such as thoracentesis and paracentesis. We understand and value the relationships we have with referring clinician. As such you will be involved in generating relationships and providing education and consultation in collaboration with our sales and marketing team. RMI radiologists are supported by the latest tools and technology to enhance efficiency and provide flexibility, including the ability to read remotely.

If this sounds like a good fit and you're ready to help us grow our practice, we invite you to submit your credentials for consideration.

Salary & Benefits:

Competitive Compensation, Vacation; CME allowances; professional liability; health, dental & vision insurance; and 401K.
