

March 16, 2021

Hello Parents,

We hope this email finds you happy and healthy!

Thank you for taking the credit when the physical camps were cancelled in 2020 due to the COVID-19 pandemic.

Your credit “lives” in the registration system and will never expire. Upon registration, the registration system will prompt you to whether you want to apply credits for the transaction. Once you agree, the credit will be applied and reflected on your receipt.

We are committed to the fact that kids need to be **mentally stimulated** in the summer of 2021 for their development and growth. As a teacher and a parent, I cannot emphasize enough that children thrive with **S.T.E.A.M. programming**. I recently went to a workshop, and the speaker said, “**Camp Today! Thrive Tomorrow!**”. How true that is! Camp is an investment in your child’s well-being. It helps build confidence, creativity, social skills and problem-solving abilities--all critical life skills that are hard to put a price tag on!

Camp Captivate is committed to **supporting families** during the summer of 2021, a time period when parents need the help. We are here for you. As a small business, we also want to keep as many staff employed as possible because these folks count on us for employment. Camp Captivate has worked feverishly to develop and offer a robust virtual **camp** that is extremely **hands-on** in nature because parents/kids are craving the **hands-on, kinesthetic learning experience** after so much screen time with online school. This program is revolutionary in the camp industry, and **hands-on, experiential learning** is at its core. In addition, we are hopeful to launch a **socially-distanced, outdoor, in-person camp** product as well. Either choice--virtual or in-person-- is good for kids and we understand that there are different comfort levels for families during this historic pandemic.

During 2021, all camp programs, both virtual and in-person, will include individual science and art kits. Since you **keep the supplies/equipment**, this will allow for more learning to happen outside of the camp time for months to come.

If your family suffered a furlough, reduced hours, or job loss, we will work with you and may be able to offer a grant towards camp.

**Your kids are craving hands-on, project-based learning, and we can support you in that.**

We are missing you all at this time and look forward to seeing you all at camp soon!

Many thanks,

A handwritten signature in black ink that reads "Ildikó". The signature is written in a cursive, flowing style with a small accent mark over the 'o'.
