

**To All That Have Sworn the
Oath of Office:**

1. Our federal government is unarguably no longer restrained by the Constitution.
2. This has only happened because those that swore their Oath to us have either lied or have no real understanding of the document that they swore to obey and defend.
3. **Therefore, we have no other choice than to declare Lancaster Co. a 10th Amendment Sanctuary Co. in order to be free again and to discover who will finally honor their Oath of Office and enforce the Enumerated Powers against our federal, state, and local employees that have lied and will continue to lie and break their solemn Oath that they swore to us.**
4. As infuriating as it is to have to say this, enforcing the Constitution is not a criminal act.
5. The most powerful weapon the Left uses to destroy our Constitution is ignoring it and their Oath of Office. They now no longer have that option.

The 10th Amendment :

**The powers not delegated to the
United States by the Constitution,
nor prohibited by it to the States,
are reserved to the States
respectively, or to the people.**

Phase Two:

9. A **Peaceful Separation** for true Americans from the 75-150+ million Marxists and their supporters living in our Republic. For as long as it will work.
10. Civil War... **OR** a simple understanding that Freedom isn't for everyone and that this great American Union of States may not be the place for you, but that the world is big and full of many places where people love Marxism and Marxists and that hate, are afraid of, and confused by Freedom and Personal Responsibility, just like you, and that you are free to walk or take trains, planes, automobiles, and/or boats to any or all of them.

LANCASTER CO., PA.

Socialism is not Freedom.

The Constitution cannot be ignored.

Phase One:

6. No one is fulfilling their Oath of Office. We know this because if we tried to live protected again by the Constitution we would be prosecuted and jailed.
7. We can, however, **talk** about the Left's unlawful activity and how we will fix all of it. We can do this **openly until it is safe to live free again.**
8. **Facts and Truth:**
 - What percentage of our federal government is constitutional, and therefore lawful and unlawful?
 - How do we enforce the Oath of Office? What are the consequences of breaking that oath?
 - How will we disentangle ourselves from Marxists and Marxism economically and governmentally?
 - Freedom only functions if we are virtuous. What can be done about people determined to vote away our Freedom and that refuse to be free or virtuous?
 - Can free people ever live with Marxists for whom Freedom is an esoteric concept and that view it with varying degrees of hatred and confusion?
 - Can we stop Marxists from weaponizing our governments, companies, and free Press against us?
 - **What are the Christian principles that make Freedom thrive? What Humanist vices destroy Freedom and inevitably lead to Authoritarianism?**
 - ... etc.

When living protected by the
Constitution is called radical,
dangerous, and illegal we
know that things have gone
horribly wrong.
