Yukon Mineral Development Strategy Panel,

To the Mineral Development Strategy Panel,

I have read and support CPAWS comments on Yukon Mineral Development Strategy. As a society we do require minerals so how to extract and remediate responsibly is the goal.

Living in the Yukon for over 30 years, I am concerned with the number of mines that essentially left a mess, or like Faro will need to be managed forever. I hope it is a legacy that will not continue.

The Quartz and Placer mining act has to be overhauled. I would say that is a priority.

I look forward to the changes that will be brought about by people much more informed and in the know that I am.

Terice Reimer-Clarke,
Whitehorse
