Omar Elementary School to Host Community Math Night

What: American Electric Power Foundation supports STEM Education through Community Math Night at Omar Elementary School

When: Tuesday, November 19, 2019
4:30 PM – 6:30 PM

Where: Omar Elementary
7061 Jerry West High Way, Omar, WV 25638

Press Background:

The event is open to all media to cover. Media should sign in at the office which is located at the main entrance of the building and proceed to the gym for the press event. Parking is available in the main parking lot.

On November 19th, Omar Elementary School will host a Community Math Night designed allow family and community members to explore content, activities, and games that support math learning in fun ways. The event allowed families the opportunity to develop and enhance their own math knowledge so they may support their students' learning and education.

The math night is part of a larger effort by The Education Alliance, called Energizing steM, designed to help young students build a strong foundation in math and engage older students and their families and community members by raising awareness of STEM careers. The Energizing steM project is offered through a major grant from the American Electric Power Foundation designed to strengthen STEM education.

Any questions as it pertains to the event and media coverage should be directed to Emily Pratt, The Education Alliance, (304) 342-7849, emily@educationalliance.org.
