## Notes to Condensed Interim Consolidated Financial Statements

For the nine-month periods ended September 30, 2019 and 2018

(Unaudited - in Canadian dollars)

---

### 1. INCORPORATION AND NATURE OF ACTIVITIES

Origin Gold Corporation (formerly OneCap Investment Corporation) (“Origin” or collectively with its subsidiaries the “Corporation”) was incorporated under the *Canada Business Corporations Act* on April 20, 2012. On July 11, 2018, the Corporation filed Articles of Amendment to change its name to Origin Gold Corporation (English version) / Corporation Aurifère Origin (French version). Origin’s common shares are listed on the TSX Venture Exchange (the “Exchange”) under the symbol OIC. The address of its head office and principal place of business is 1801 McGill College Avenue, Suite 950, Montreal (Quebec), Canada, H3A 2N4.

### 2. GOING CONCERN

Given that the Corporation has not yet determined whether its mineral property contains mineral deposits that are economically recoverable, the Corporation has not yet generated income nor cash flows from its operations. As at September 30, 2019, the Corporation has an accumulated deficit of \$10,891,779 (\$9,983,940 as at December 31, 2018) and a working capital of \$409,640, which is not sufficient to meet the Corporation’s operating activities. These material uncertainties cast a significant doubt regarding the Corporation’s ability to continue as a going concern.

These condensed interim consolidated financial statements (the “Financial Statements”) have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern. The Corporation’s ability to continue as a going concern is dependent upon its ability to raise additional financing, to meet its existing commitments, to further explore its mineral properties, to pay for general and administrative expenses and to continue to have the support from its suppliers and creditors. Even if the Corporation has been successful in the past in doing so, there is no assurance that it will manage to obtain additional financing in the future.

The Financial Statements do not reflect the adjustments to the carrying values of assets and liabilities, to the reported expenses and to the financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

While management has been successful in securing financing in the past, there can be no assurance that it will be able to do so in the future or that these sources of funding or initiatives will be available to the Corporation or that they will be available on terms which are acceptable to the Corporation. If management is unable to obtain new funding, the Corporation may be unable to continue its operations, and amount eventually realized for assets might be less than amounts reflected in the Financial Statements.

### 3. SIGNIFICANT ACCOUNTING POLICIES

#### 3.1 Statement of compliance

The Financial Statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and interpretations as approved by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*.

The Financial Statements do not include all of the disclosure required for annual financial statements and therefore should be read in conjunction with the Corporation’s audited annual consolidated financial statements and notes thereto for the year ended December 31, 2018 (“2018 Audited Financial Statements”).

### 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.2 Basis of presentation and evaluation

The significant accounting policies followed in the Financial Statements are consistent with those applied in the Corporation's 2018 Audited Financial Statements.

The Financial Statements were authorized for issuance by the Corporation's Board of Directors on November 26, 2019.

#### 3.3 Basis of consolidation

The Financial Statements include the accounts of Origin since August 25, 2017 and those of its wholly-owned subsidiaries: Rio Moche Exploration Inc. ("Rio") from its incorporation date in 2007 until its dissolution in February 2019, 11023926 Canada Inc. and Trinité S.A.S., a Colombian subsidiary, newly created entities in 2018. All intra-group transactions, balances, income and expenses are eliminated during consolidation. All subsidiaries have reporting dates of December 31.

A subsidiary is an entity controlled by the Corporation. Origin controls an entity when the group is exposed to, or has the right to variable returns from involvement with the entity and has the ability to affect these returns through its power over the entity.

#### 3.4 New accounting standard adopted

##### IFRS 16 Leases ("IFRS 16")

In January 2016, the IASB issued IFRS 16. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, which is the customer ("lessee") and the supplier ("lessor"). IFRS 16 replaces IAS 17 Leases ("IAS 17"), and related interpretations. Save for short term leases and leases of low value assets, all leases result in the lessee obtaining the right to use an asset at the commencement of the lease and, if lease payments are made over time, also obtaining financing. Accordingly, IFRS 16 eliminates the classification of leases as either operating leases or finance leases as is required by IAS 17 and, instead, introduces a single lessee accounting model. Applying that model, a lessee is required to recognize:

- i) assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value; and
- ii) Depreciation of lease assets separately from interest on lease liabilities in the statement of income (loss).

The Corporation has adopted IFRS 16 on January 1, 2019. Management has determined that the adoption of IFRS 16 had no significant impact on its Financial Statements.

#### 3.5 New standards not yet adopted and interpretations issued but not yet effective

There are no relevant changes in accounting standards applicable to future periods other than as disclosed in the 2018 Audited Financial Statements.

### 4. CRITICAL ACCOUNTING ESTIMATES, JUDGMENTS AND ASSUMPTIONS

When preparing the Financial Statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results are likely to differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. The estimates and underlying assumptions are reviewed by management on an ongoing basis.

In preparing the Financial Statements, the significant judgements made by management in applying the Corporation's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the 2018 Audited Financial Statements of the Corporation.

### 8. SHARE CAPITAL (CONT'D)

#### e) Warrants

The underlying expected volatility of the Warrants was determined by reference to historical data of comparable entities as the common shares of the Corporation started publicly trading in September 2017.

Warrants outstanding as at September 30, 2019 are as follows:

Number of warrants	Exercise price	Expiry date
3,478,261	\$0.20	September 29, 2020
2,392,000	\$0.15 <sup>(1)</sup>	February 25, 2021 <sup>(1)</sup>

1,783,000	\$0.15	May 16, 2021
10,856,261		

- (1) In May 2019, the Corporation amended the expiry date and the exercise price of the outstanding Warrants issued in a private placement completed on August 25, 2017. An aggregate number of 2,550,000 Warrants were initially issued at an exercise price of \$0.25 and with an expiry date of August 25, 2019. An insider of the Corporation owns 412,500 of the amended Warrants; 254,500 of the insider Warrants were repriced and the expiry date was amended and 158,000 of the insider Warrants were amended as to the expiry date.

The Corporation amended for 2,392,000 Warrants the exercise price to \$0.15 and extended the expiry date to February 25, 2021. If the closing price of the Corporation's common shares is \$0.1875 or more for a period of 10 consecutive trading days, then those warrant holders will have 30 days to exercise their Warrants.

In addition, the Corporation extended the expiry date for 158,000 Warrants to February 25, 2021.

This operation was treated as an exchange of the original warrant for a new Warrant. The incremental value of \$65,375 recorded in equity was measured as the difference in the fair value of the new and the original Warrant at the amendment date. The fair value of the new Warrants was calculated using the Black-Scholes model based on the following assumptions: risk-free interest rate of 1.53%, expected volatility of 85%, dividend yield of 0% and expected life of 1.75 years. The underlying expected volatility was determined by reference to historical data of the Corporation's shares over the expected average life of the Warrants.
