JOB SUMMARY

The primary function of the position supports the Tribe’s Environmental Program. This position will assist with the development, analysis, management, and coordination of the Tribe’s Environmental Program in the completion of tasks outlined in a variety of Federal grants and contracts, including but not limited to; the U.S. Environmental Protection Agency General Assistant Program (GAP) and Clean Water Act (CWA) § 106 Water Pollution Control Program, Bureau of Indian Affairs Natural Resources Management programs, U.S. Fish and Wildlife Service, and U.S. Department of Agriculture Natural Resources Conservation Service contract agreements. Additionally, the position will assist in preparing and managing essential environmental program grants, plans, ordinances, conducting surface water quality collection activities, habitat and biological data collection, performing analyzes and developing reports; and the implementation and management of outreach and education activities to engage Tribal Membership. Must have the ability to coordinate with local, state and federal environmental and natural resource agencies. Should be familiar with federal, state and local agencies and programs including U.S. EPA, U.S. Fish and Wildlife Service, BIA, U.S. Forest Service, U.S. Army Corps of Engineers, and U.S. Geological Service. Should have knowledge of federal and state environmental statutes and regulations. Must have good interpersonal skills, be a team player; and the ability to communicate diplomatically with co-workers, government agencies, and community members. This position is responsible for meeting the Tribal Environmental goals and objectives of the Narragansett Indian Tribe’s under the direction of Community Planning & Natural Resources Director. This position is required to work in all types of outdoor field conditions, may work alone, and as needed, support a non-traditional work schedule. At least some knowledge of the Narragansett Indian Tribe’s culture, history, and political landscape is desired.

Job Responsibilities:

• Continued development of the NIT Environmental Program.
• Responsible for performing and completing tasks under the EPA GAP and CWA §106 programs.
• Responsible for performing and completing tasks under the BIA natural resources funded programs and USDA contract agreements.
• Familiarity with biological and environmental data and analysis methods to assess environmental resources.
• Ability to be innovative in enhancing environmental protection and natural resources on the NIT reservation.
• Assist in building capacity under the Environmental Program.
• Assess the impact of reservation activities on the natural and environmental resources of the Tribe such as water resources to ensure their optimum management and protection.
Experience with federal regulations such as, but not limited to: Clean Air Act, Clean Water Act, Safe Drinking Water Act, Endangered Species Act, Migratory Birds Act, and NEPA.

Familiarity with grant writing and management.

Provides administrative support to the Environmental Program Director to manage project tasks, grant manage and budgeting.

Write required environmental assessments and reports for environmental and natural resource programs.

Research and apply for funding to enhance the environmental program.

Develop and conduct outreach activities and environmental education activities.

Develop technical documents, including, but not limited to, Quality Assurance Project Plans (QAPP) and Standard Operating Procedures.

Inventory and assess the environmental programs goals, objectives and needs in order to build the environmental program and identify new projects such as, but not limited to; non-point source pollution, climate change, environmental justice, wetlands, macro-invertebrate, and groundwater.

Experience using GPS equipment and GIS software (ArcGIS – ESRI’s desktop GIS software).

Collect, process, evaluate, and summarize scientific and technical data and ideas to make effective decisions and develop appropriate solutions.

Develop, prepare, and present studies and reports to Tribal Government Council and other groups.

Coordinate public outreach and environmental education activities for the Tribal Community.

Develops informative outreach material including newsletters, brochures and presentations.

Collect surface water quality samples consistent with the Tribes QAPP, URI Watershed Watch’s standard operating procedures.

Submit environmental data electronically via WQX.

Work independently within established guidelines, prioritize and coordinate activities, and meet critical deadlines.

Use of excellent verbal and written skills to effectively, and diplomatically communicate with co-workers, federal government agencies, and community members.

Attend meetings, conferences, seminars, and trainings in subjects related to environmental and natural resources protection, health and safety, emergency preparedness, and others as directed.

Must possess excellent verbal and written skills.

Perform other duties as assigned or required by the Director.
