Pathways for Referral & Follow-Up to Developmental Screening in Marion and Polk Counties

Stakeholder Meeting to Inform the Community-Based Quality Improvement (QI) Project
Marion and Polk Early Learning Hub Conference Room - 2965 Ryan Dr SE, Salem OR
January 19th, 2017 @ 11-1 PM

Do not copy or reproduce without proper citation.
1. Refresher on Project Activities and Goals
2. Stakeholder Engagement & Attendee Introduction
3. Update on Project Activities & Key Learnings To Date
   • Overall summary of key activities and tools developed to inform pilot
   • Spotlight of pilot site activity
     #1) Primary Care Pilot Sites: Suzanne Dinsmore
     #2) Early Intervention/WESD: Tonya Coker
4. Next Steps
This Meeting Will Be a Success If:

At the end of the meeting, attendees will:

1) Understand the **project activities**

2) Learn about the **stakeholders in Marion and Polk County** that have been engaged, and play a role in developmental screening AND addressing developmental promotion opportunities for young children

3) Receive an **update on pilots to improve** children identified on developmental screening as needing supports to receive services that are the **best match for the child and family**

4) To obtain input on these activities so that they can best address the needs and opportunities in Marion and Polk County
30,000 Foot View of This Project
Funding to Willamette Education Service District (WESD)

- Willamette Education Service District (WESD) received funds to improve follow-up to developmental screening for young children (0-3). Includes a specific focus on secondary processes for children referred to EI and then found Ineligible children. *(Ends June ‘17)*
  - Three-County Effort: Marion, Polk, and Yamhill

- WESD is using a portion of those funds to contract with OPIP to lead a community-based improvement effort in Marion, Polk and Yamhill:
  - Time Period for OPIP’s Subcontract: May 2016-June 2017
    - Collect data to inform efforts
    - Engage parent advisors
    - Partner with primary care providers, WESD, and community-based providers to pilot methods to enhance follow-up.
    - Summarize findings from these improvement across Marion, Polk, and Yamhill Counties
      - Findings shared with Oregon Department of Education, Early Learning Council, and Legislature

Community-Based Improvement Opportunity:
Align Silo’d System-Level Goals to Develop and Implement Standards of Care Across Systems for Follow-Up to Developmental Screening

Coordinated Care Organizations
Goals Related to:
1) Developmental Screening
2) Well-Child Care
3) Coordination of Services

Early Intervention
Provide services to young children to achieve educational attainment goals

Early Learning Hubs
Goals Related to:
1) Family Resource Management
2) Coordination of services
3) Ensuring children are kindergarten ready

School Readiness

Population of Focus for this Project

• Important to be clear on WHICH children this project is focused on
• Children **0-3** for whom:
  1) A **developmental screening tool** was administered and
  2) For which the **child was identified as at-risk for developmental, behavioral, or social delays** and should receive follow-up developmental promotion services
    – All sites interviewed and part of the project using the Ages and Stages Questionnaire
    – Therefore the population of focus is children who were identified as at-risk for delays on the ASQ
    – Based on ASQ scoring, across the five domains of development, this is children who scored at least:
      • 2 STD from the Norm in **One Domain (in the Black)** in 1 Domain) OR
      • 1.5 STD in **TWO Domains (2 in the Grey)**

• We heard you on the importance of language
  – Engaged parent advisors on all materials for pilot sites and direct to parent education
  – Incorporated strength based approaches in each element
  – Goal it promote development and help each child reach their maximum potential
Parent Advisory Engagement

• Review of overall project and priority areas
• Specific review of direct to parent materials
  1. One-Page Education Sheet
  2. Phone Call Follow‐up Being Conducted by Primary Care Sites

Parent Advisors

• Individual Parent Advisors
• Parent Advisory Groups
  o Marion and Polk Early Learning Hub
  o Woodburn Parent Advisory Group
### Stakeholder Interviews Conducted in Marion and Polk

#### a. Primary Care Providers
- Childhood Health Associates of Salem
- Woodburn Pediatric Clinic
- Salem Pediatric Clinic
- Willamette Family Medical Center
- Lancaster Family Health Center (reached out)

#### b. Health System Reps.
- WVP & WVCH
  - Stuart Bradley
  - Dean Andretta
  - Anna Stern
- Mid-Valley BCN
  - Margaret Terry
- Salem Health Rehabilitation Center
  - Steve Paysinger

#### c. Early Learning Hub
- Marion & Polk Early Learning Hub - Lisa Harnisch and Staff
- Marion and Polk Early Learning Hub Board of Directors
  - 27 Members
- Marion and Polk Early Learning Hub Regional Implementation Team
  - Over 30 Members
- External (ELD) Hub Facilitator
  - Tab Dansby

#### d. WESD/EI
- WESD
  - Linda Felber
- Marion EI
  - Tonya Coker
- Yamhill/Polk EI
  - Cynthia Barthuly
- WESD- EI Intake
  - Sandra Gibson

#### e. Community Based Providers Who Conduct Dev. Screening and/or Provider Follow-Up
- CaCoon, BabiesFirst, Healthy Families
  - Judy Cleave (Marion)
  - Jean DeJarnatt (Marion)
  - Jacqui Beal (Polk)
  - Wendy Zieker (Polk)
- Polk County Early Learning and Family Engagement, OPEC- Polk
  - Heather Smith
- Creating Opportunities
  - Cheryl Cisneros
- Community Action Head Start of Marion and Polk
  - Eva Pignotti and Staff
- Oregon Child Development Coalition
  - Berni Kirkpatrick
- NW Human Services
  - Marybeth Beal
- OR Family Support Network
  - Sandy Bumpus
- Marion County Children’s Behavioral Health
  - Gwen Kraft
- Valley Mental Health
  - Kim Buller
- Childcare Resources and Referral Network
  - Shannon Vandehey and Jenna Sanders
- ASQ Oregon
  - Kimberly Murphy, Liz Twombly
- 211 Statewide
  - Emily Berndt
- OPEC-Marion County
  - Margie Lowe
- Family Building Blocks
  - Heather Peasley
  - Sara Matthews

Stakeholders in Marion and Polk County Here Today

- List of Attendees is in the meeting materials
- Introductions: 1-2 Minutes
  1) Name, Organization
  2) What is one thing about the project you hoping to learn more about? (By Organization)
  3) A barrier to follow-up to developmental screening that you hope this project addresses? (By Organization)
1. Refresher on Project Activities and Goals

2. Stakeholder Engagement & Attendee Introduction

3. Update on Project Activities & Key Learnings To Date
   - Overall summary of key activities
   - Spotlight of pilot site activity
     #1) Primary Care Pilot Sites: Suzanne Dinsmore
     #2) Early Intervention/WESD: Tonya Coker

4. Next Steps
**Partners in the Community-Based Improvement Efforts Being Piloted Through June 2016 to Enhance Follow-Up to Screening**

### Primary Care Sites Already Conducting Developmental Screening
Pilot Sites: Childhood Health Associates of Salem (CHAoS), Physician Medical Center (Yamhill), and sharing information with Salem Pediatrics

**QI Tools/Methods Developed for PCP:**
- Referral and follow-up pathway diagram anchored to: 1) ASQ scores, B) Resources within Marion and Polk
- Training on referral and follow-up pathways
- Practice-level improvement support and facilitation, including processes to use information provided by community-based providers
- Development of materials to support families
  - Parent education material and
  - Phone follow-up for referred children within 36 hours to answer questions and address barriers

**Summary of WVCH coverage of follow-up services**
- Specific services, providers, whether they serve young children
- Services covered within WVCH (Under WVP & BCN)

### Early Intervention (WESD)

**QI Tools/Methods Being Implemented:**
- Enhanced communication to referring provider when not able to contact the child OR the family declines services
- Enhanced processes around directing EI ineligible children to other community-based providers (e.g., centralized home visiting referral form)
- Enhanced feedback forms about service being provided so that secondary referral resources can be identified.

### Community-Based Providers
Identified pathways from PCP to six priority referrals.

Through the project, **NEW referrals** being implemented are to:
- **Family-Link:** Centralized home visiting referral
- **Parenting classes within the OPECs:** Mid-Valley Parenting & Marion and Polk Early Learning Hub

Enhanced **developmental promotion** within PCP sites leveraging sharing of tools highlighted within the HUB (e.g., VROOM)

Determining the “Best Match” for Follow-up Services for the Child/Family: Priority Pathways Developed by Community Asset Mapping

- Recognize it is not as a simple as:
  - “At-risk” or not based on the ASQ (2 in the Black, 1 in the Grey)
  - Stakeholder interviews, and the data confirmed, that not all children who are identified “at-risk” should be referred to EI and medical evaluation in OR.
    - That said, 7 out of 10 not referred – too low
- Identified primary follow-up resources to developmental screening in Marion/Polk:
  1. Medical (Developmental evaluation)
  2. Early Intervention
  3. CaCoon/Babies First
  4. Family Link - Centralized Home Visiting Referral (Includes Early Head Start and Head Start)*
  5. Parenting Classes
  6. Mental Health
- Developed guide to referral of these resources based on:
  - ASQ Scores
  - Child/family risk factors
  - Child/Family demographics (income/ county)
- Given many children will be found ineligible for EI or receive only a specific set of resources, secondary referral and follow-up
Pathways for Follow-Up to Development Screening for Children 0-3 in Marion and Polk County

Figure 1.0: Childhood Health's Decision Tree: Follow-Up to Developmental Screening Conducted in First Three Years of Life & Referral Opportunities Addressing Risks

**Follow-Up Based on Total Score Across Domains:**

**GROUP A**
- Developmental Promotion:
  1. ASQ Learning Activities for Specific Domains Identified At-Risk
  2. Information on Vroom
- Refer to Early Intervention For An Evaluation
- To Determine Eligibility Use Universal Referral Form, FERPA Signed, indicate "Summary Evaluation Form" To Receive Summary of Services
- Consider Referral to Developmental/Behavioral Pediatrician
- Consider Supplementing Medical and Therapy Services

**GROUP B**
- "At-Risk": 1 or more in Black; OR 2 or more in Grey
- And could benefit from EI
- Developmental Promotion:
  1. ASQ Learning Activities for Specific Domains Identified At-Risk
  2. Information on Vroom
- Refer to Early Intervention For An Evaluation
- To Determine Eligibility Use Universal Referral Form, FERPA Signed, indicate "Summary Evaluation Form" To Receive Summary of Services

**GROUP C**
- 'Watchful Waiting' Borderline: 2 or more Grey or 1 in Black But Not Ready to Refer to EI
- Developmental Promotion:
  1. ASQ Learning Activities for Specific Domains Identified At-Risk
  2. Information on Vroom
- Re-Screen in 3-6 Months, Set up a Follow-Up If Child Does Not Have A Visit

**GROUP D**
- In Black on Social Emotional Domain
- Provide:
  1. Providing ASQ Learning Activities for SE Domain
  2. Information on Vroom
- Behavior/impulsivity with significant functional impact (e.g., exposed from child care)
- And/or
- Exposure to Adverse Childhood Events (ACES) in Family Environment
- Consider Use of Early Childhood Mental Health Dx Codes
- If YES:
  - Privately Insured
  - Child Lives in Marion County
  - Options Counseling North Valley Mental Health, Salem Psychiatry
- If NO:
  - Publicly Insured
  - Child Lives in Polk County
  - Options Counseling North-Child, Marion County Children's Behavioral Health, Mid Valley SCNY, Valley Mental Health, Inter-Cultural Or for Psychology, Polk Mental Health - Child, Legacy Sherton Health

**Three Community Resources To Consider for Groups A-D**

**Resource #1**
- Social Risk Factors
  - Ex: parent with inadequate knowledge/supports, alcohol/substance abuse, or mental illness; teen parent
  - Child has a Medical Dx or Medical Risk Factors (ex: FIT, elevated lead, seizure disorder)
  - AND
  - YES

**Resource #2**
- Family Risk Factors
  - Present or Exposure to Adverse Childhood Events & would benefit from Home Visiting and/or Head Start
  - Publicly Insured
  - YES

**Resource #3**
- Support developmental promotion by addressing issues such as literacy/reading, parenting skills, food insecurity
- Could benefit from parenting classes?
  - Child Lives in Marion/Polk County
  - Classes in Marion Counties

**Mid-Valley Parenting**
- www.midvalleyparenting.org
- Email: parentresources@co.polk.or.us

**Marion & Polk Early Learning Hub**
- www.carlylearninghub.org
- Email: parenthub@earlylearninghub.org

Developmental Promotion

ASQ Learning Activities for the Specific Domains

Fine Motor Activities to Help Your Toddler Grow and Learn

Your toddler’s eyes and hands are working together well. He enjoys taking apart and putting together small things. He loves using any kind of writing or drawing tool. Provide scrap paper, washable crayons, or markers. You can also try puzzles, blocks, and other safe small toys. Talk and enjoy the time together.

When writing or drawing, set up clear rules. “We draw only on the paper, and only on the table. I will help you remember.”

**Flipping Pancakes**
Trim the corners from a simple sponge to form a “pancake.” Give your child a small frying pan and a spatula. Show him how to flip the pancake.

**Macaroni String**
String a necklace out of dried pasta with big holes. Tube-shaped pasta, such as rigatoni, works really well. Your child can paint the pasta before or after stringing it. Make sure she has a string with a stiff tip, such as a shoelace. You can also tape the ends of a piece of yarn so that it is easy to string.

**Homemade Orange Juice**
Make orange juice or lemonade with your toddler. Have him help squeeze the fruit using a handheld juicer. Show him how to twist the fruit back and forth to get the juice out. To make lemonade, you will need to add some sugar and water. Let him help you stir it all up. Choose!

**Draw What I Draw**
Have your child copy a line that you draw, up and down and side to side. You take a turn. Then your child takes a turn. Try zigzag patterns and spirals. Use a crayon and paper, a stick in the sand, markers on newspaper, or your fingers on a steamy bathroom mirror.

**Bath-Time Fun**
At bath time, let your toddler play with things to squeeze, such as a sponge, a washcloth, or a squeeze toy. Squeezing really helps strengthen the muscles in his hands and fingers. Plus it makes bath time more fun!

**My Favorite Things**
Your child can make a book about all of his favorite things. Clip or staple a few pieces of paper together for him. He can choose his favorite color. Let him show you what pictures to cut from magazines. He may even try cutting all by himself. Glue pictures on the pages. Your child can use markers or crayons to decorate pages. Stickers can be fun, too. You can write down what he says about each page. Let him “write” his own name. It may only be a mark, but that’s a start!

**Sorting Objects**
Find an egg carton or muffin pan. Put some common objects such as nuts, shells, or cotton balls into a plastic bowl. Let your toddler use a little spoon or tongs to pick up the objects and put them in different sections of the egg carton. Give her a little hug when she has succeeded.

Vroom!

Brain Building Basics
5 things to remember for building your child’s brain

1. **Look**
   Make eye contact so you and your child are looking at each other.

2. **Chat**
   Talk about the things you see, hear and do together, and explain what’s happening around you.

3. **Follow**
   Take your child’s lead by responding to their sounds and actions, even before they are old enough to talk. When they do start talking, ask follow up questions like “What do you think?...” or “Why did you like that?”

4. **Stretch**
   Make each moment longer by building upon what your child does and says.

5. **Take Turns**
   With sounds, words, faces and actions, go back and forth to create a conversation or a game.

Do not copy or reproduce without proper citation.
Example Parenting Classes

• **Make Parenting a Pleasure (in Spanish: Haga de la Paternidad un Placer)**
  o This parenting curriculum has been in practice for more than 30 years. It is designed for parents who are highly stressed with children 0 to 8 years old.

• **Abriendo Puertas (in English: Opening Doors)**
  o Nation’s first evidence-based comprehensive training program developed by and for Latino parents with young children between the ages of 0 and 5 years old.

• **Nurturing Parenting**
  o Family-centered trauma-informed program designed to build nurturing parenting skills as an alternative to abusive and neglecting parenting and child-rearing practices.

• **Collaborative Problem Solving: Parent workshop**
  o **CPS** is a strengths-based, neurobiologically-grounded approach that brings new ideas and new hope for helping kids with behavioral challenges.

• **Mothers and Babies**
  o This class is designed specifically to provide support and encouragement to mothers who are pregnant or have an infant 36 months or younger. In this course each mom will learn ways to think about and interact with their young baby to create an emotionally and physically healthy reality. Topics include baby development, managing stress and mood changes. Mothers receive individual support from their instructor/coach as well as build support with other new moms.

Agenda

1. Refresher on Project Activities and Goals
2. Stakeholder Engagement & Attendee Introduction
3. Update on Project Activities & Key Learnings To Date
   - Overall summary of key activities
   - Spotlight of pilot site activity
   - #1) Primary Care Pilot Sites: Suzanne Dinsmore
   - #2) Early Intervention/WESD: Tonya Coker
4. Next Steps
Focus of Improvement Effort Within Childhood Health Associates of Salem

1. Examination of our data and the need for improvement
2. Refined Process for EI Referrals
   – Refresher training on EI Referral Form
   – Follow-up Phone Script and Process
   – Process for using communication back from EI
3. Refined Referral Algorithm Across Community-Based Providers
   – Medical decision tree based on ASQ, child and family risk factors
4. Parent Education Sheet
5. Planned Pilot with FamilyLink
CHAoS Charts We are Examining

- Screening rates
- Number of children identified on the ASQ
  - Specific ASQ Domain Level Scores
- Which kids are and are not referred
- How many of our referrals result in contact and then services
  - Overall
  - Deep dive with referral to EI
- Assessment of the impact of the strategies we are going to be implementing
  - Do they work in getting more kids in for services
An Applied Example from One of Our Primary Care Pilot Sites

Number of ALL Children in Clinic (Publicly and Privately Insured) **WHO RECEIVED A DEVELOPMENTAL SCREEN IN ONE YEAR:**
N=1431

Number of children who were **identified at-risk and SHOULD HAVE BEEN TO REFERRED TO EI:**
N=401

Of the children who received a developmental screen, **30% identified at-risk for delays** for which developmental promotion should occur

**NUMBERREFERRED TO EI:**
N=173

57% NOT REFERRED

Data Source: Data provided by Childhood Health Associates of Salem, Aug. & Jan 2017

Do not copy or reproduce without proper citation.
Refined Process for EI Referrals

1. Refresher training on EI Referral Form
   - Specific Components of the Form
   - FERPA component and importance
   - Options for feedback

2. Follow-up Phone Script and Process
   - Follow-Up to Families whose children were referred to
     remind them of the importance, answer questions, and
     identify any barriers

3. Process for using communication back from EI
   - Workflow around documentation from EI that child was
     unable to be contacted OR evaluated
   - Communication to referring PCP

Do not copy or reproduce without proper citation.
Phone Follow Up within 36 Hours

Hello- May I speak with (name of patient’s primary caregiver). My name is (your name) and I’m Dr. XX’s (whatever your position is). Your son / daughter, (Name of child) had an appointment with Dr. XX on (time, date, location) for a well visit.

At your appointment, Dr. XX recommended that your child go to (Insert EI program Name i.e Early Intervention at Willamette Education Service District). We realize it can be overwhelming to get a lot of information about next steps at your appointment, so I wanted to call and answer any questions that you may have had come up since then.

So what questions do you have about why Dr. XX wanted (insert child’s name) to go to Early Intervention at Willamette Education Service District, or about what will happen next?

Answer questions (frequent questions or concerns highlighted in blue)

- When completing the referral, you were asked to sign the consent form. This gives Early Intervention permission to share information about the evaluation back to us. This helps us to provide the best care for (insert child name)
- Why go to EI/ What does EI do: At the appointment Willamette Education Service District will be doing a more detailed evaluation of (insert child’s name) development. Then, based on their assessment they will help us understand what we can do to support (insert child’s name) and whether your child may benefit from services.

Can you think of any barriers that might come up for you and your family in getting (insert child)’s name to these services?

- Barrier is transportation – discuss Triplink and how to set up a ride as needed

Are there any other questions that you have or anything else I can do to help you in getting to these appointments?

If no further questions: Great. You should be getting a call from the Early Intervention Coordinator, their names are Sandra or Gemma, to schedule an appointment.

We are here to support you, so if you have any questions, feel free to contact (insert name) at (phone number).
Implementation of 36-Hour Phone Follow Up

Our Learnings to date:

• Currently our Referral Coordinator is calling all families that are referred to Early Intervention within 2 business days
  – We are calling once and leaving a message
    o As experienced by community based providers, we are having some issues getting ahold of families
  – Even with our lack of contact, Early Intervention’s Intake Coordinator has reported a higher number of families calling directly to schedule their appointments from our clinic
  – Exploring potential use of email via our patient portal
Provider Training on the Medical Decision Tree Developed by OPIP Factors to Consider in Identifying Best Follow-Up to Meet Child and Family Needs

- Clarify referral pathways to the following:
  1. Medical and Therapy Services
  2. Early Intervention
  3. Cacoon/Babies First
  4. Family Link
  5. Parenting Classes
  6. Mental Health

- Helpful in identifying specific community-based resources we can refer to
  - We were not aware of OPECs or FamilyLink

- Helpful to clear direction based on the ASQ score, child and family risk factors
  - That said, right now, don’t have standardized screens for many of the family risk factors
Medical Decision Tree

Pathways for Follow-Up to Developmental Screening for Children 0-3 in Marion and Polk County

Figure 1.0: Childhood Health’s Decision Tree: Follow-Up to Developmental Screening Conducted In First Three Years of Life & Referral Opportunities Addressing Risks

Follow-Up Based on Total Score Across Domains:

**GROUP A**
- 2 or More In the Black
  - Developmental Promotion: 1) ASQ Learning Activities for specific domains identified at-risk 2) Information on Vroom
  - Refer to Early Intervention for an Evaluation
  - Consider Referral to Developmental/Behavioral Pediatrician (Use DMDS referral sheet)
  - Consider Supplementing Medical and Therapy Services Under insurance Coverage: Medical & Therapy Services (See One-Page Summary of MDCG Providers and Coverage)

**GROUP B**
- "At-Risk": 1 or more in Black; Or 2 or more in Grey And could benefit from EI
  - Developmental Promotion: 1) ASQ Learning Activities for specific domains identified at-risk 2) Information on Vroom
  - Refer to Early Intervention for an Evaluation to determine eligibility. Use universal referral form, FERPA signed, indicate "Summary Evaluation Form" to receive summary of services

**GROUP C**
- "Watchful Waiting" Borderline: 2 or more Grey or 1 in Black But not ready to refer to EI
  - Re-screen in 3-6 Months. Set up a follow-up if child does not Have a Visit

**GROUP D**
- In Black on Social Emotional Domain
  - Behavior/Impulsivity with significant functional impact (e.g., expelled from child care)
  - Consider use of early childhood mental health of families

And, if applicable, follow-up for a specific domain:

**Resource #1**
- Child has a Medical Dx or Medical Risk Factors (ex. FTT, elevated lead, seizure disorder)
- Social Risk Factors (ex. parent with inadequate knowledge/supports, alcohol/ substance abuse, or mental illness, teen parent)

**Resource #2**
- Publicly Insured
- Child lives in Marion/Polk County
- Include info on EI Referral

**Resource #3**
- Child lives in Vashon/Polk Counties
- Include info on EI Referral

**Additional Resources**
- Mid-Valley Parenting
  - www.midvalleyparenting.org
  - Email: parentresources@co.polk.or.us

- Marion & Polk Early Learning Hub
  - www.earlylearninghub.org
  - Parentinghub@earlylearninghub.org

Do not copy or reproduce without proper citation.
One-Page Education Sheet for Families

- Currently don’t have information sheets about the referrals that happen as a result of developmental screening
  - We have information about the programs (WESD)

- Excited to pilot the use of the information sheets and then will help to gather feedback from families and the CHAoS staff

- Again, we will be tracking our data to assess for impact

- Starting pilot with existing referrals
  - Once we kick off referral to Family Link then we will be adding them
Follow-Up to Screening: How We Can Support Your Child

Why did we have you complete a questionnaire about your child’s development?
Our goal is to help young brains and bodies develop and grow to their fullest potential. These support services can help prepare your child for kindergarten and beyond. National recommendations call for specific tools to be used to assess a child’s development, such as the one you completed. This tool helps identify kids who may be at risk for delays. It is important to identify these delays early, as there are services that can address them.

Based on the results, we are referring your child to the services checked below:

- [ ] Early Intervention
  - Who is Early Intervention (EI)?
  - EI helps babies and toddlers with their development. In your area, Willamette Education Service District (WESD) runs the EI programs.
  - EI focuses on helping young children learn skills, EI services enhance language, social and physical development through eligibility for infant and toddler services.
  - There is no charge to you for services for EI services.

- [ ] Family Link
  - Who is Family Link?
  - FamilyLink is a group of community organizations. This group meets each month to identify the best programs and services to meet the needs of the child and family. FamilyLink serves families with eligibility requirements.

- [ ] Medical and Therapy Services
  - What to expect of your child when referred to Family Link?
  - One of the community organizations will work to provide services to your family.
  - What will happen if your child was referred to Family Link?
  - WESD will call to set up an appointment for your family to assess your child.
  - If you miss their call, you should call back immediately to schedule the evaluation.
  - If the child is eligible, you will be referred to one of the community organizations.
  - There is no charge to you for services provided.

What did you sign a consent form?
As your child’s primary care provider, we want to be informed about the care your child receives so that we can provide the best care possible. The consent you signed allows the program to share information back to us. Different programs have different consent requirements. You will likely be asked to sign more of these to give permission for different providers to communicate about your child’s care.

Any Questions?
At Childhood Health Associates of Oregon, we are here to support you and answer any questions you may have. Please call our referral coordinators.
Phone: 503-364-3710

Pilot Education Sheet for Parents To Explain Referrals
Pilot of Referrals from CHAoS to Family Link
Pilot of Referrals from CHAoS to FamilyLink

- Exploring how CHAoS can pilot referral to FamilyLink
- Currently gathering important background and context and held a “meet and greet”
- Now we’re outlining the specifics of:
  - Which kids we would refer and current capacity
  - How we would refer
  - Communication feedback loops and tracking
Agenda

1. Refresher on Project Activities and Goals
2. Stakeholder Engagement & Attendee Introduction
3. Update on Project Activities & Key Learnings To Date
   • Overall summary of key activities
   • Spotlight of pilot site activity
     #1) Primary Care Pilot Sites: Suzanne Dinsmore
     #2) Early Intervention/WESD: Tonya Coker
4. Next Steps
Focus of Improvement Effort
Within Willamette Education Service District (WESD)

1. Provided data presented at the last meeting to inform discussions about priority areas of focus
2. Referring children found EI ineligible to Centralized Home Visiting
3. Implement tools to improve communication and coordination
4. Supporting development of one-page summary of services for Eligible children
5. For children referred with a ASQ domain level scores, data on EI eligibility
Data provided from WESD on Early Intervention Referral and Evaluation Outcomes To Inform This Community-Based Improvement Project

- Child find rates
- Number of Referrals
- Number of Referrals Able to be Contacted and Evaluated
- Of referrals evaluated, outcome of children (Eligible, Ineligible)
*In 2014, it was identified that for 3 months there was systematic difference in the way data was entered for referrals in that one child may have been entered in multiple times (one child could have appeared as more than one referral). This issue was addressed, however, referral numbers in 2014 are a bit inflated during this time period and may not be comparable to 2013 and 2015 referral data.

Focus of Improvement Effort
Within WESD- Early Intervention

- Enhanced communication methods to tell primary referral agency “not able to contact/evaluate” BEFORE closing out the child’s case

- Follow-up Steps for EI Ineligible
  - Use of referral forms to Centralized Home Visiting (Family Core)
  - Communication back to PCP on ineligibility

- Development of one-page summary of services (for PCP) for EI Eligible children

- For children referred with a ASQ domain level scores, data on EI eligibility
Focus of Improvement Effort Within WESD- Early Intervention

Referral Using URF → Phone Call Attempt #1 → No contact → Schedule Evaluation

Made contact → Phone Call Attempt #2 → Send Letter

Made contact → Provider Feedback-Bottom of EI Form

Schedule Evaluation → No contact → Close Referral

Yes → Evaluation (to happen within 45 days)

No → Provider Feedback-Bottom of EI Form

Eligible?

Yes → Provider Feedback-Bottom of EI Form

No → Determine Services

Focus of Improvement Effort
Within WESD- Early Intervention

• Enhanced communication methods to tell primary referral agency “not able to contact/evaluate” BEFORE closing out the child’s case

• Follow-up Steps for EI Ineligible
  o Use of referral forms to Centralized Home Visiting (Family Core)
  o Communication back to PCP on ineligibility

• Development of one-page summary of services (for PCP) for EI Eligible children

• For children referred with a ASQ domain level scores, data on EI eligibility
Referral from WESD To Centralized Home Visiting Services

- Referral of EI Ineligible to the Centralized Home Visiting referral that exists in these counties:
  - Marion and Polk: Family Link
  - Yamhill: Family CORE

- Contextual Issues to Consider
  1) EI doesn’t know about most of the risk factors on the form, so can’t complete them to inform best match program
  2) Examined characteristics of EI Ineligible
     - Most were not insured by Medicaid
       - May not be eligible for majority of services within Home Visiting
Referral from WESD To Centralized Home Visiting Services

Family Link

Use this form to refer pregnant women or parenting families with children ages 0-5 to early learning and family support programs in Marion and Folk counties. Services are most often delivered through home visits and/or classroom-based programs and designed to improve child health and development, increase school readiness, improve maternal health, and increase positive parenting practices.

Focus of Improvement Effort
Within WESD- Early Intervention

• Enhanced communication methods to tell primary referral agency “not able to contact/evaluate” BEFORE closing out the child’s case

• Follow-up Steps for EI Ineligible
  o Use of referral forms to Centralized Home Visiting (Family Core)
  o Communication back to PCP on ineligibility

• Development of one-page summary of services (for PCP) for EI Eligible children

• For children referred with a ASQ domain level scores, data on EI eligibility
Summary of Services EI Eligible Children Receiving

• Finding from the baseline stakeholder interviews was that people would find it valuable to receive a one-page summary of the EI services to be provided.

• Goal is to provide a summary that can be used by the primary care provider in order to identify additional and complementary services provided within the health care system and in other community-based programs that may robustly address other child needs.

• Developed a draft template of the one-page summary
  o OPIP then gathered input from primary care providers about if the summary would be valuable
  o Modifications made based on stakeholder input

• Working to develop the template in the EI data systems

Focus of Improvement Effort
Within WESD- Early Intervention

• Enhanced communication methods to tell primary referral agency “not able to contact/evaluate” BEFORE closing out the child’s case

• Follow-up Steps for EI Ineligible
  o Use of referral forms to Centralized Home Visiting (Family Core)
  o Communication back to PCP on ineligibility

• Development of one-page summary of services (for PCP) for EI Eligible children

  • For children referred with a ASQ domain level scores, data on EI eligibility
Examining Presenting ASQ Domain-Level Scores Provided by Referral and EI Eligibility

• Identified children who were referred to EI and domain-level developmental screening scores were provided
  o Only 28% of referrals over last two school years had a domain-level scores for ASQ
• Required manual chart review and data entry
• Provided OPIP with blinded data base
  o ASQ scores
  o EI eligibility and for which domains
  o Other descriptive factors to inform analysis. For example:
    ✓ Age of child
    ✓ Medicaid insured
    ✓ Referral source
• Primary care pilot sites also providing data on children referred to EI and their information about the child’s domain-level score
• OPIP will be conducting analysis to identify any trends to inform better referrals from primary care to EI (Data may be too small)

Do not copy or reproduce without proper citation.
Total Children Evaluated vs. Total Children Evaluated For Which Referral Included ASQ Domain-Level Scores

- SY 14-15:
  - Total Children Evaluated by WESD: 572
  - Total Children Evaluated with Presenting ASQ: 129 (23%)

- SY 15-16:
  - Total Children Evaluated by WESD: 582
  - Total Children Evaluated with Presenting ASQ: 184 (31%)
Agenda

1. Refresher on Project Activities and Goals
2. Stakeholder Engagement & Attendee Introduction
3. Update on Project Activities & Key Learnings To Date
   • Overall summary of key activities
   • Spotlight of pilot site activity
     #1) Primary Care Pilot Sites: Suzanne Dinsmore
     #2) Early Intervention/WESD: Tonya Coker

4. Next Steps
Next Steps

– Implementation support of the pilot sites
  • Primary Care Sites
  • WESD
  • Pilots of Family Link and OPEC Connection

– Data collection to assess impact and refinements needed
  • WESD Data; Includes examination of EI Eligibility by presenting ASQ Score
  • PCP Data
  • Tracking data by Family Link, OPEC Classes

– Spring Stakeholder Meeting
