Follow-Up to Screening: How We Can Support Your Child

Why did we have you complete a questionnaire about your child’s development?

Our goal is to help young brains and bodies develop and grow to their fullest potential. These support services can help prepare your child for kindergarten and beyond.

National recommendations call for specific tools to be used to assess a child’s development, such as the one you completed. This tool helps identify kids who may be at-risk for delays. It is important to identify these delays early, as there are services that can address them.

Based on the results, we are referring your child to the services checked below:

- Early Intervention (EI)
- Family CORE
- Medical and Therapy Services

Why did you sign a consent form?

As your child’s primary care provider, we want to be informed about the care your child receives so that we can provide the best care possible. The consent you signed allows the programs to share information back to us.

Different programs have different consent requirements. You will likely be asked to sign more of these to give permission for different providers to communicate about your child’s care.

Any Questions?

At Physicians Medical Center we are here to support you and your child and help you get the best care possible. If you have questions about this process please call us!
