

*You are amazing!!*

You are so brave and selfless and we will forever admire your strength and depth of love. Should you choose to allow us to raise your child, we promise we will surround him with constant love, joy and laughter. We will tell your child about you and the overflowing love you gave to him. We promise to raise him in a Christ centered home and to stay strong in our marriage, so we can love this little one fully.

*About us:*

We met in the eighth grade in a small town in north central Florida. We were friends all through high school and started dating the summer before our senior year. We graduated as high school sweethearts and were married two years later in December of 2004. We have grown up together in our last 14 years of marriage and are so excited for our future as we believe the best is yet to come.

In our free time you will find us playing frisbee with our boxer Duke, enjoying the beautiful Florida outdoors, or relaxing at our home. We are so excited to share these special moments with a precious little one.

*Why adoption:*

Jordan was diagnosed with leukemia as a child. He also had a rare chromosome defect that lowered his chances of survival from 50% to 25%. After rounds of chemo therapy, radiation and a bone marrow transplant from his sister, he was placed in remission at age 5. Surviving cancer has given him an amazing appreciation and opened the window for the amazing journey of adoption.

*About Amanda:*

Amanda is 34 years old and works in the accounting department for a governmental agency. In her free time she enjoy reading, making crafts, and hanging out with friends. She also enjoys outdoor activities such as hiking, bike riding, and running. She ran the Disney Princess half marathon about five years ago!

*About Jordan:*

Jordan is 35 years old and is a commercial lender and has a flexible schedule that allows him to take time off when desired. In his free time, he enjoys working out, taking trips, and helping friends and family with projects. He also enjoys a good lazy day at home.

*Family:*

All combined, we have nine nieces and nephews that are eager to play with this little one!! Our entire family is so excited about our adoption and will surround this little boy with such love and security. We can't wait to see what the future holds.
