NEWS RELEASE

National Association of Vision Care Plans sets April 2017 dates for industry summit

Washington, D.C., Feb. 20, 2017 – The National Association of Vision Care Plans (NAVCP) announced today that it will hold its annual Vision Health Summit April 23-25, 2017 at the Westgate Hotel in San Diego, CA. The event was previously known as the Specialty Health Summit, which NAVCP co-hosted with the National Association of Specialty Health Organizations.

The 2017 summit will serve as an opportunity for managed vision care industry professionals to hear updates on the latest industry trends and federal and state healthcare public policy activity, share best practices, and develop innovative approaches for promoting vision health.

“Americans who maintain good eye health are more productive and can identify earlier serious medical conditions, such as diabetes, hypertension and high cholesterol, through regular eye exams,” said Julian Roberts, NAVCP executive director. “This summit will focus on achieving a not-to-distant future in which vision health is equated with overall health.”

Event and room reservations can be made at <http://www.navcpsummit.org/>.

For information about Vision Health Summit sponsorship, please contact Pat Ciresi at (502) 403-1129, ext. 102.

About NAVCP

NAVCP is a nonprofit organization serving as a unified voice for the managed vision care industry. The association provides a platform for cooperative industry collaboration on initiatives that work to preserve and strengthen consumer access to affordable vision insurance and benefits. NAVCP member companies operate extensive networks of vision care providers in all 50 states. Those networks cover approximately 170 Million (53 percent) Americans.
