Review	<p>Mantanani Islands are a group of three isolated islands located northwest of Kota Belud, about an hour drive from the state capital of Sabah, Kota Kinabalu. These islands are approximately 45 minutes boat ride by speedboat from the mainland. The Matanani island promises the most diverse marine life with visibility up to 40 metres. Many species of rays flutter around like blue spotted ray and marbled sting ray amongst large schools of fish. Besides that muck diving is excellent with the quiet existence of imperial shrimps, jaw fish ribbon eels, seahorses, pink-eyed gobbler and the jaw-dropping blue ringed octopus, amidst nudibranch of all sorts.</p>
