FOR THE UN WE NEED

Social Media Toolkit

February 2020

UN2020 Background

The UN2020 initiative is dedicated to using the 75th anniversary of the United Nations in 2020 as an opportunity to take stock and strengthen the UN system in partnership with civil society, governments, and the UN in support of a people-centered multilateralism or strengthened means of cooperation between and among states.

We believe that strengthening the UN system means improving multilateral relations and structures for global problem-solving.

To this end: we involve the progressive voice of civil society in the conversation about the UN we need to meet the challenges of the 21st century.

Why #MultilateralismMatters

At a time when nationalism is on the rise and multilateralism is being called into question by powerful governments, we are faced with an increasing number of global threats that require greater international cooperation across borders, sectors and generations.

What will the future look like if the major trends of climate change, environmental loss and degradation, military conflict, and inequality are left unchecked in the absence of global cooperation?

Renewing multilateralism: we need bold collective action more than ever.
