2020 Census with Christine Zess

Census-taking in the United States dates all the way back to March 1, 1790, when a population count was one of the first things that Congress instructed George Washington's government to do. A census has been conducted every 10 years since—for 230 years.

Tonight's program will explain the vital importance of the 2020 Census, describe the challenges faced by Erie County, and offer ways to partner with the U.S. Census Bureau to ensure that Erie County achieves a complete and accurate count of its population.
