

Remind Anyone, Anytime, & in Any Way

Send calls to any telephone (old or new) - Transmit text messages with detailed time and location, emails can be included too. Responses can be centralized into one interface and our system is automated, integrated, and scalable.

Appointment Reminder Software Sends Messages as a Reminder

Appointment Reminder Software (ARS) is no longer just for doctors! Appointment Reminder Software allows you to send reminders by voice (telephone call), text (SMS), or by email message. Many types of businesses have now begun to use Appointment Reminder Software with their clients:

- Doctors, attorneys, consultants, accountants, brokers and real estate agents
- Household furnishings and appliance deliveries
- Flooring, siding or roofing installation
- Elderly community bus programs
- Airport pick up
- Materials pick up or drop off
- Any business that sets appointments with its clients!

How Does the Software Work?

- Using current Voice Over Internet Protocol technology
- Cloud-based interface works with computers smart phone and tablets
- Text2Speech messages in multiple languages
- Works with the scheduling software you already have
- The message is individualized by day of week, time of the appointment, and service provided
- Makes phone calls, sends text messages and emails to clients.

For example, "This is an appointment reminder from ABC Roofers. We are calling to remind you that we are scheduled for new shingle installation on your house on Monday at 10:00 a.m. If you cannot make this appointment call 222-333-4404 to reschedule or press any key on your telephone now, and your will be transferred to our scheduling manager."

Why Appointment Reminder Software?

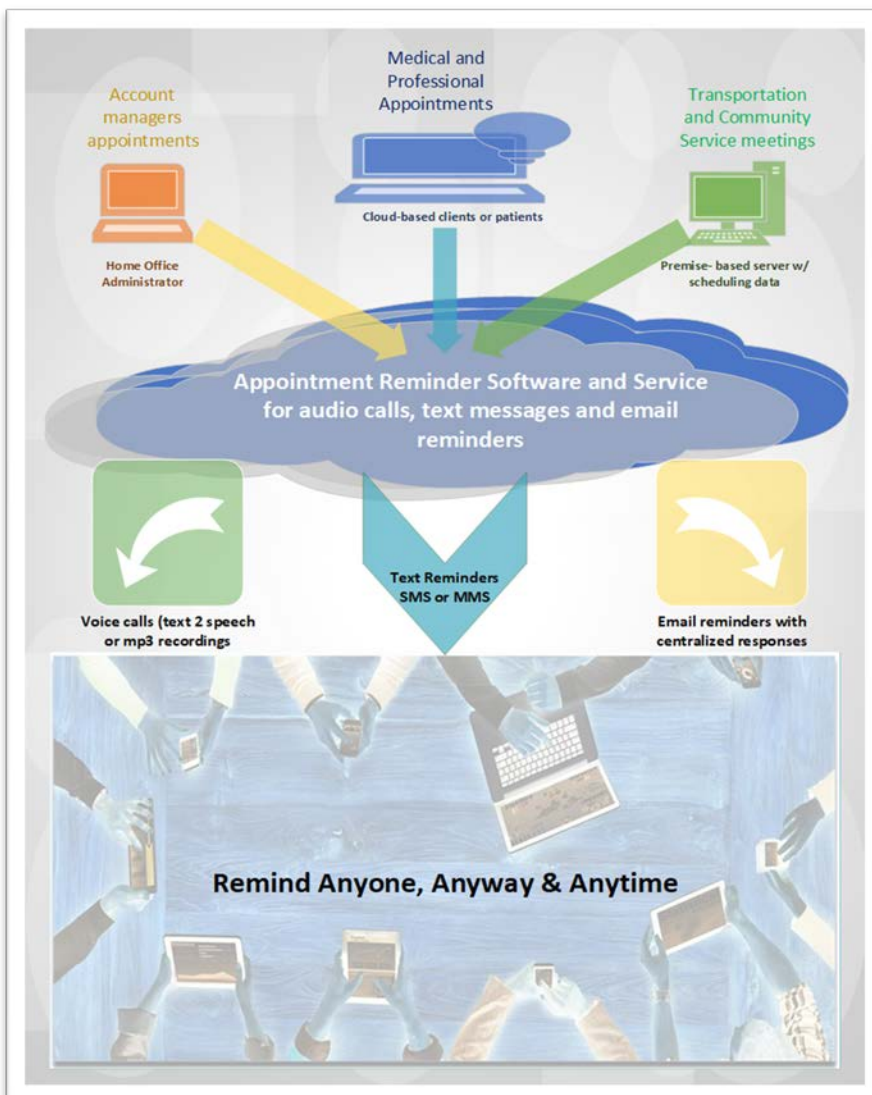

- Save time and money (no more staff time spent on reminder calls, waste less time rescheduling appointments or deliveries)
- Maintain security
- Integrate with your data
- Get results and reports (ARS can call multiple times)

Clients Get the Message the Way They Like It:

- The message can be sent via phone call, text message or e-mail according to your client's preference, or clients can get all three, if they wish.
- Appointment Reminder Software can send thousands of messages per reminder campaign.

Is the Software Expensive?

- ARS is cloud-based which lowers cost
- Appointment Reminder Software saves time and money - no need to waste staff time making calls
- ARS operates with your scheduling software no disruption to your staff
- Can be fully automatic or with just a few minutes a day your staff can initiate the calls, text and email reminders
- Prevent no shows - save time and money!
