

XDry Dry Cabinets Corporate Headquarters Relocates to Dallas, TX

DALLAS, TX — February 2021 — XDry Corp., a leading supplier of humidity-controlled storage cabinets for manufacturing, laboratories and preservation, today announced that it has relocated its corporate headquarters to Dallas Texas. The company also has authorized distributors in Bangkok, Thailand.

XDry has been providing humidity-controlled storage dry cabinets for more than 15 years. The storage systems are self-contained and easy to maintain. With these dry cabinets there is no need for nitrogen or compressed air – just plug the dry cabinet into the wall and it is ready to go.

The cabinet environment can be maintained from ambient to 1% RH, providing constant and stable storage at precisely the required RH level. Our dry storage cabinets satisfy standards such as IPC/JEDEC J-STD-033 and IPC/JEDEC J-STD-020.

These desiccant dry cabinets are the perfect solution for printed circuit board and moisture sensitive component storage.

###

About XDry Corporation

15+ years of experience manufacturing dry cabinet storage systems. Founder Kevin McCarten was an early pioneer in the design of humidity-controlled storage – also known as auto-electronic desiccator storage cabinets. The corporation offers a wide selection of dry storage cabinets to choose from, including storage for printed circuit boards, moisture sensitive devices (MSD), optics, laboratory equipment, industrial equipment, collectables, media and more.
