FOR IMMEDIATE RELEASE

Bethel Church of Morristown Offers COVID-19 Testing Clinic

Morristown, NJ – Bethel Church of Morristown (along with the Spring Street CDC) is offering a COVID-19 Testing Clinic every Saturday from February 6 through February 27, from 11 am to 3 pm in the basement of the church (enter through the handicap side entrance). The Clinic is facilitated by Platinum Health Services, administered by Dr. Donat-Flowers and the staff of DocSpot Urgent Care, with analysis by ACCU Reference Medical Lab.

Testing is available to all residents whether they are experiencing symptoms of COVID-19 or not, and both nasal swab and antibody testing is available. Appointments are highly recommended, but walk in and same day appointments are also available. There are no out-of-pocket costs to participants to receive a test. Schedule a test and bring health insurance card (if insured), photo ID, proof of residence, and Social Security number to the appointment. Test results are back in approximately 48 hours.

“Covid testing has become more and more difficult for people to obtain in a timely manner,” said Teresa Williams, Executive Director of the Spring Street CDC. “We are very excited to partner with Platinum Health Services so we can offer testing every week to those in need.”

For clinic details and information on how to schedule a COVID-19 test, please visit springstreetcdc.org or bethelmorristown.org.

Bethel Church of Morristown is located at 59 Spring Street, Morristown, NJ. Please look for the entrance sign on the one-way street (Bishop Nazery Way) and park in the lot on the right side of the street. The entrance to testing center will be marked.

Bethel Church of Morristown and the Spring Street CDC work together to strengthen families and uplift the community. We are very committed to supporting the local community and beyond.
