## SUCCESS...

... belongs to those who work ahead and more importantly – do a good job.

Basol has been doing both at a fair price since 1947.

The result has been a solid growth and the ability to fill the needs and expectations of our many customers.

Our clientele and customers are the industrial segment of America. With our specialization to the industrial world...our professional services in maintenance and janitorial supplies are most efficient and affordable by design.

All of us at Basol welcome the opportunity to serve your single project or major and on-going industrial needs.

# Maintenance

## Service Division

Flexibility is the key ingredient in the Basol Maintenance Service Division. This can be as simple as a one-time project or a long-term maintenance agreement to take care of all of your maintenance and cleaning needs.

Each and every job is customized to fit the needs of you, our customer. We strive to make the operation as painless as possible in both physical inconvenience and in the pocketbook.

We're always happy to sit down and discuss our many options in maintenance service. And, of course, it costs you nothing for the initial consultation and estimate free of charge.
