PRODUCT LINE SHEET

TECHNOLOGY	MANUFACTURER	EQUIPMENT
<i>Activated Carbon</i>	Yardney Water Management	Granular GAC Media System
<i>Biological Treatment</i>	Envirotect	Fixed growth, ZERO Sludge
	Aslan Technologies	Membrane BioReactors
<i>Clarification</i>	EPS Wastewater LLC	Llamella Plate Clarifiers, Polypropylene and Steel
	WaterTectonics	Electrocoagulation & Electrochemical Oxidation
<i>Deionization/Ion Exchange</i>	Marlo Incorporated	Single Bed and Mixed Bed Packages
	Voltea	CapDI, Desalinate Water, Low Energy, NO Chemicals
<i>Dewatering</i>	Oberlin	Continuous, Flat Bed Pressure Filters
	Ortec	Belt Filter Presses
	EPS Wastewater LLC	Plate and Frame Presses
	Vincent	Screw Press
<i>Disinfection & Oxidation</i>	Aquionic Ultraviolet	UV Lamps and Systems
	Spartan Technologies	Ozone and Advanced Oxidation Systems
<i>Filtration</i>	Eaton Filtration - Hayward Div.	Bag Filters, Cartridge Filters, and Vessels
	Zero Gravity Filters	Self Cleaning Coil Filters
	Graver Technologies	Cartridge Filters and Vessels
	Jonell Systems & Facet	Advanced Liquid and Gas Filters and Coalescers
	Yardney Water Management	Granular Media Systems - Sand, MM, Walnut Shell
	Filtration Group - Nowata Proguard	Precoat Leaf and Tubular Filtration Systems
	Spiral Water LLC	Self Cleaning, Backwashing and Mechanically Cleaned Filters
	Schrieber	Synthetic Media, Gravity Flow, Deep Bed Filters
	Filtration Group	Self Cleaning, Tubular Backwashing, Fine Filtration Systems
<i>Floatation</i>	EPS Wastewater LLC	Dissolved, Induced and SAF Floatation Systems
	Marlo Incorporated	RO Machines and Systems for Pure Water Applications
<i>Membrane</i>	Aslan Technologies	UF and MBR technologies for treatment of wastewater, utilizing tubular and hollow fiber membranes
	VSEP - New Logic	MF, UF, NF and RO Membranes High Shear Vibratory Technology
	Graver Technologies	MF and UF Tubular Membranes - Stainless Steel
<i>Screens</i>	JWC Environmental	Sidehill and Rotary Fed Self-Cleaning Wedgewire Screens
	Eaton Filtration	Mechanically Cleaned Filters
	Ortec	Rotary Fine Screen Machines, Mechanically Cleaned
<i>Separators and Skimmers</i>	EPS Wastewater LLC	Oil/Water Coalescing Separators
	Universal Separators	Oil/Water Coalescing Separators - Horizontal and Vertical Designs
	Zero Gravity Filters	Automatic Magnetic Filters & Separators
<i>Strainers</i>	Eaton Filtration - Hayward Div.	Self-Cleaning, Simplex, Duplex, Fabricated and Y Type - Metal and Plastic
<i>Systems</i>	PAPSCO Filtration	Customizable Filtration Packages for Water, Wastewater, Coolant and Process Fluids
	EPS Wastewater LLC	Turnkey Wastewater Treatment Systems - Clarification Ultrafiltration and Floatation
	Newterra	Modular and Mobile Designs for Wastewater and Ground Water Remediation

PAPSCO Filtration offers a full line of filtration consumables to meet virtually any filtration application. Including Bags, Cartridges, Roll Medias, and Wire Mesh Screens.

PAPSCO Filtration offers simple, innovative and proven solutions in the treatment of process water, wastewater and fluid processes. Our philosophy is to supply non-chemical, low maintenance equipment applied to your applications to achieve 100% customer satisfaction.
