

## **TARA KAPILA**

Tara Kapila is Vice President, Customer Product Growth for National Grid. She is an integral part of the team of National Grid which is attempting to achieve deep decarbonization across the Northeast, particularly in the transportation sector, the largest emitter of greenhouse gases.

Tara is committed to working with people and communities to develop and implement a regional policy that addresses the urgent need to reduce greenhouse gas emissions and other harmful pollutants generated by the transportation and particularly embraces the goals of equity, environmental justice, non-discrimination and meaningful public participation. She fervently believes that lower-income households should be empowered to participate in the clean energy transition and share the benefits that solar can bring. She is also working on improving equity in mobility and community engagement through transportation system.

Previously, Tara led Customer Excellence at National Grid. She also held leadership roles in Unipart Group, Tesco, and the University of Manchester.

Tara Kapila holds a BS in Psychology from the University of Manchester, an Executive Certificate from Massachusetts Institute of Technology – Sloan School of Management, and Columbia Business School.
