

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Union Pearson Express (formerly known as the Air Rail Link) service between Union Station and Pearson International Airport. This project is one of the key elements of The Big Move.

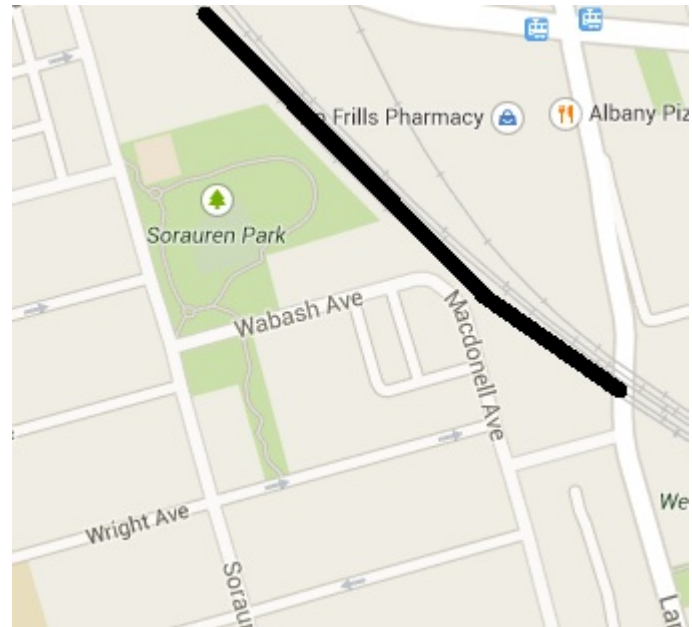

Vibratory Roller Work through April

What we are doing

- Excavating to install a new storm sewer between Lansdowne Ave. and Bloor GO Station.
- The new drainage system will allow for improved storm water management in the area.
- This work requires use of a vibratory roller during the day for the month of April.

How this will affect you

- Residents and businesses may experience vibration during our work.
- To minimize any impacts, we will water the ground to speed up the compaction process.
- Regular work hours are **Monday to Friday 7:00 a.m. to 7:00 p.m.** and **Saturdays 9:00 a.m. to 7:00 p.m.**
- We continue to monitor vibration levels in the area.

The black line represents the location of the storm sewer and grading work for the month of April.

East Corridor E-mail List

We want to maintain regular communications with our neighbours while work is being completed. To receive updates and information about the work in your community, please send an email to gts@gotransit.com referencing the East Corridor E-mailing list and include your name, address, telephone number and email.

Thank you for your patience as we work on the East Corridor Grading, Track and Signals Project
