# SPLASHCAP™

## Wound Irrigation Shield

SPLASHCAP™ is a twist-on wound irrigation shield that allows a clinician to deliver hundreds of milliliters of irrigation fluid directly to a wound in seconds.

### Features & Benefits

- **Faster Wound Irrigation:** Improved productivity and faster turnaround times.
- **Safer Built-in Shield:** Reduces risk of needle sticks and splattering when using bottle caps without shields.
- **Proven Pressure (PSI):** 4 - 15 PSI.
- **Universal Fitting:** Fits all major standard saline bottles.
- **Better Wound Care:** Standardize wound irrigation procedures in your department.
- **High Volume:** Deliver over 250 ml of irrigation fluid in seconds.
- **Kid Friendly:** No scary syringes.

### SPLASHCAP™ Advantages

#### SPLASHCAP™ advantage over a syringe shield

- Time savings
- Easier to use
- No repetitive drawing up the solution and flushing the wound
- Attach and disconnect the shield to syringe each time
- A 20cc syringe = 25 times to deliver 500cc – SPLASHCAP™ can deliver that volume in seconds

#### SPLASHCAP™ advantage over punching a hole in saline cap

- Eliminates needle-sticks
- Eliminates splatter from wound site
- Less mess

#### SPLASHCAP™ advantage over shields that require their saline bottle

- Reduced inventory
- Less expensive
- Less storage space required
