## ASBESTOS LICENSED LABORATORY

H&P is a Virginia DPOR licensed laboratory for the analysis of asbestos in air. Our laboratory is further certified by the American Industrial Hygiene Association for the analysis via Phase Contrast Microscopy (PCM) by National Institute of Occupational Safety and Health (NIOSH) analytical method NIOSH 7400.

## PROFESSIONAL COMPETENCE

Our team of professionals will be led by Chris Nixon. Chris has over 25 years of experience within the environmental and industrial hygiene industry. He has extensive experience as an industrial hygienist providing indoor air quality assessments for microbiological agents, methamphetamines and unknown chemicals.
