

Pluralsight GCP Certification

About Pluralsight

Pluralsight believes that everyone should have access to progress through technology and prepare for a better tomorrow. It started off as a classroom program where they used to send instructors on call. Later, in 2017 it took its base to online. It has been providing cloud-based trainings on various sectors like software developers, or IT professionals. It also does an open source category with 100+ for developers.

Google Cloud Platform and Its Certification

What does a computer do? In simple layman's terms a computer does three basic actions, store, process, and compute. The rate at which the market is growing, it is becoming increasingly difficult to manage these basic three actions. The organizations require faster data analysis, high-level graphics rendering, and high-level storage. There are two choices available at this point, either buying additional hardware, or shift to cloud.

The obvious answer? Cloud computing, putting the business on cloud. On-demand delivery of IT-services online on the go. Zero hustle compared to maintaining physical data centres and servers. An efficiently low cost, more secure and most importantly remote access from anywhere that has an internet connection.

GCP- Google Cloud Platform- It started off as a niche player in the web service provider. It runs on the same infrastructure that google uses for its search engine, Gmail and YouTube. Now, its on the top 3 list of cloud platforms. GCP is particularly suiting up for AI and ML with its modular applications. It is compatible with both public and private cloud environment. With the trust of google, it gives sincere effort in developing and delivering the best products to enterprises.

GCP Certification Benefits

- GCP provides 6 different professional certifications to boost up the career
- This kind of certification require quite a lot of commitment, therefore, individuals or enterprises with such certification are highly valued in the market
- Google can offer a service that will make their customers' applications modern, compatible across any public or private cloud environment
- GCP makes the applications modular enough to change quickly for the future to take advantage of more of their offerings such as AI and ML
- GCP has a very different take on cost controlling, Build-your-own server types, here the desired compute and memory specs can be combined to gain price benefits
- Lastly, with a push in professional field, GCP can higher the salary benefit

Pluralsight Courses on GCP

- Essential Google Cloud Infrastructure: Foundation- <https://www.pluralsight.com/courses/essential-google-cloud-infrastructure-foundation>
- Networking in Google Cloud: Defining and Implementing Networks- <https://www.pluralsight.com/courses/networking-google-cloud-defining-implementing-networks>
- Essential Google Cloud Infrastructure: Core Services- <https://www.pluralsight.com/courses/essential-google-cloud-infrastructure-core-services>
- Networking in Google Cloud: Hybrid Connectivity and Network Management- <https://www.pluralsight.com/courses/networking-google-cloud-hybrid-connectivity-network-management>
- Elastic Google Cloud Infrastructure: Scaling and Automation- <https://www.pluralsight.com/courses/elastic-google-cloud-infrastructure-scaling-automation>
- API Design and Fundamentals of Google Cloud's Apigee API Platform- <https://www.pluralsight.com/courses/api-design-fundamentals-google-clouds-apigee-api-platform-update>

Our Promise

As we discussed about cloud-based IT- services, this calls for particularly skilled and highly efficient set of employees. Therefore, there is a constant demand for trainings and re-skilling of the industry people. With this growing demand, combined with the globalisation we needed to re-think our traditional methods of trainings. Cloud or online training programs. These programs are readily available and aims at a vast section of crowd sans the chaos of physical set-up. These not only provide hustle-free labs but also makes it available to people located remotely.

We at Nuvepro strive to provide the industries with best in class support for Google Platform Certification Labs.
