

Formulated specifically for aircraft transparent plastic windows, 20/20 SWIPE has been used on military aircraft for decades. Meeting MIL-C-18767A(ASG) and AMS 1535C specifications, 20/20 SWIPE is popular with many government agencies, and a favorite of helicopter pilots, air racers, and motorcyclists, among many others.

EASY TO USE *SPEED CLEANER & POLISH*

20/20 SWIPE's easy spray on / wipe off application is fast and thorough. Lubricating oil, grease, soil, bird droppings and insect carcasses are wiped away with minimal pressure leaving a streak free, clear transparency. 20/20 SWIPE cleans without scratching and will not affect painted surfaces or other aircraft material. Its unique formula assures even coverage in sun or shade.

20/20 SWIPE

BENEFITS BEYOND CLEAN...

Regular polishing with 20/20 SWIPE delivers additional benefits. Its UV protectant formula inhibits UV induced crazing and discoloration. It also deposits an anti-static barrier prohibiting dust, ash, lint, and other atmospheric particulates from statically adhering to transparency surfaces.

Plasticizers in 20/20 SWIPE help keep plastic windows, windshields, instrument lenses, face shields and goggles clean and clear.

A FEW ADDITIONAL USES...

- *Plastic Automobile Convertible Top Windows*
- *Truck Plastic Windows*
- *Motorcycle Windshields*
- *Boat Plastic Windows*
- *Flexible Windows in Canvas Covers & Sidings*
- *And More...*

Count on NUVITE to deliver the most efficient products & technology available. NUVITE's top quality product line includes compounds, polishes, sealants for bright work and paint care, cleaners for exterior and interior care, along with complementing, professional-level equipment and accessories.
