

NPC/3

PC2311 Series

NPC/3 is a next generation, multi-functional dry-wash compound specially formulated to: clean, deoxidize, protect and preserve aircraft exterior paint. NPC/3 removes all types of soil conditions including: surface dirt, carbon, lubricants, hydraulic fluids etc. while providing a smooth and glossy surface. NPC/3 provides a surface barrier which seals the substrate against soil re-deposition and protects against UV deterioration.

APPLICATION

Apply NPC/3 by hand, spray or mop head. Agitate area evenly while material is still wet. Allow to fully dry, approximately 5-10 minutes. Buff with a clean mop head or dry terry or soft terry cloth to shine.

For heavily soiled surfaces, wipe or wetwash with CITRICUT or SS9-3 prior to using NPC/3.

For best results, please consult with UPI/ Nuvite technical staff for further recommendations, and application techniques.

BENEFITS

- Effective soil removal
- Removes surface oxidation from paint and metal surfaces
- No odor and no dust allows for continuous maintenance operations among departments
- Preserves and protects against further oxidation, UV and atmospheric corrosion
- Safe to all aircraft components; conforms to airframe OEM standards and specifications

PHYSICAL CHARACTERISTICS

TEST	NPC/3
Appearance	Off white, semi viscous liquid
pH	11.5 - 11.8
Specific gravity	0.980

AVAILABILITY

55 Gallon, 5 Gallon, 1 Gallon, 1 Quart, 1 Pint
