Preventing for Your Doctor's Visit

Fill out the information below to the best of your ability. Share it with your doctor. Be open and honest in answering any questions your doctor may ask you about the changes you've been experiencing. It is recommended to bring someone with you, either a family member or someone who knows you well enough to contribute information and can take notes so you don’t have to worry about remembering anything.

Has your health, memory or mood changed?

__________________________________________________________________________

How did it change?

__________________________________________________________________________

When did you first notice the change?

__________________________________________________________________________

How often does it happen?

__________________________________________________________________________

When does it happen? Is it always at a certain time of day?

__________________________________________________________________________

What do you do when it happens?

__________________________________________________________________________

What behaviors are the same?

__________________________________________________________________________

**Do you have problems with any of the following?**

Please check the answer.

Repeating or asking the same thing over and over?

### What to bring with you to your doctor visit

Bring someone with you, either a family member or someone who knows you well enough to contribute information and can take notes so you don’t have to worry about remembering everything.
Bring all over-the-counter and prescription medications.
Bring your Advance Directives if you have them.

### Questions to ask the doctor

- What are tests I need to take and how long will it take to get a diagnosis? Will you refer me to a specialist?
- Could the medicines I’m taking be causing my symptoms?
- Do I have any other conditions that could be causing my symptoms or making them worse?
- What should I expect if it is Alzheimer’s?
- Which treatments are available for Alzheimer’s? What are the risks and benefits and possible side effects?
- What about participating in a clinical trial? What are the risks and benefits?
- Is there anything else I should know?
- When should I come back for another visit?
- Where can I get information about Advance Directives if I don’t yet have one?
