

Mike Smith, Mayor

For Immediate Release:

March 19, 2020

Effective Immediately:

We have been advised that jurisdictions are having issues with their sewer systems and lift stations due to baby wipes and Lysol wipes locking up the lift stations. Please throw wipes in the trash and do not flush down the toilet. We are trying to be precautionary and so there is no interruption in service so that it does not affect our sewer system.

Thank you,

Public Works
