

Top Ten Steps to Success

A NATRC sanctioned clinic to help riders with judging opportunities

Located at Hatchet Valley Farms, Rockford, AL

February 29, 2020

Years ago, Wayne Tolbert presented seven ways to control your horses' feet that were the basis of any NATRC judged obstacle. I think there are at least three more cues that are essential for riders to succeed in showing their horsemanship skills during a CTR. So...ten cues on the ground and then in the saddle.

All of these cues rely on pressure and release. How much pressure is enough? Do you need a crop to make your horse move its feet, or can you move a 1000 lbs. with your little finger?

Stop, Settle, Slow is another key to success. Judges may ask something that seems complicated, but always can be done with these ten cues, if you stop, slow down, and take it one step at a time.

Presented by:

Experienced Open Riders—to be determined

\$60.00 limit 15 spaces

Contact Clinic Chair Sara Baldwin: forestowners@wildblue.net

256 377 2656

205 217 3221

NOTE: CALL FOR DIRECTIONS DO NOT USE GPS

Limited overnight camping available--call to discuss.

Dogs must be on leash or in campers at all times.

Your clinic fee will include day trail fee for Friday through Sunday!
