

Not Just Hopeful...Helpful!

Thirty years of scientific research, the collection of thousands of patients' perspectives, plus new technological tools, result in increased access to medical care, improved health outcomes and reduced costs for patients. This is the foundation for the Community Pain Center™ (CPC).

There's something for everyone!

- *Individuals with Pain*
- *Caregivers*
- *Health Care Providers*
- *Non-Profit Organizations*
- *Health Industry*
- *Government*

Re-Imagined Health Care

For Everyone Affected by Chronic Pain

The CPC is an all-inclusive digital health destination web portal devoted to helping those affected by chronic pain to improve their health via an **INTEGRATIVE APPROACH** to wellness.

Welcome to the Next Generation of Health Care

Support Centers

Each of the nine Support Centers within the CPC has a unique function designed to give you the most up-to-date information, tools and resources.

What Is the CPC?

The Community Pain Center (CPC) is the only patient-centric, one-stop destination web portal for actively managing your health. This type of service has not been available for people living with pain—until now. Our goal is to provide you with the resources and tools you need to improve your overall health. Within the CPC you can utilize a wealth of products and services, educational materials, and self-management tools that will save you time and money, while improving your access to care, and resulting in better health outcomes.

How It Works

The CPC's Support Centers already include a host of community focused, interactive, motivational and useful tools and services to promote health and wellbeing. Soon members will also have access to an integration of experienced companies, non-profit organizations, educational providers, leading health care professionals, extensive evidence-based treatment options, advocacy training programs, extensive written and video information, one-on-one assistance, and so much more!

Work in Progress

Please bear with us as we diligently work, with your feedback and input, to fully develop the CPC into the comprehensive health care community you want it to be. You are instrumental in this process and we ask you to share your suggestions and comments, so that we can create the optimum environment for you to realize your best health.

www.OurCPC.com

We are honored to offer the chronic pain community “hope and help” as we actively work together to provide assistance and motivation, as well as empower you to learn how to better manage your health.
