Topic: Data Management & Development – Going Beyond the Medical Model

Agenda:

- Welcome new partners – membership of 15
 - What internal needs (needs inside your organization) do you see this C5-Rural network meeting for behavioral health?
 - How do you see the C5-Rural network benefitting your profession/practice specifically? Please be specific.
 - How do you see the C5-Rural network benefitting patients? Please be specific.
 - How does C5-Rural ADD VALUE to how our community cares for people in our area?
- Environmental Scan Summary (Diana)
 - Inform Network Partners on summarized results from focus group
 - Discussion and Network consensus
- Keynote Speaker – Michael Ward, Network Director, Behavioral Health Network of South Lake Tahoe
 - Michael is Chief Strategy & Innovation Officer for HighBar Global Consulting providing Internationally Certified Professional Facilitation and Project Leadership to Diverse Networks including stakeholder, governance, and service partnership entities. Through HighBar Global Michael has produced a 20 year record of accomplishments since 1999 with public and private sector organizational advance projects and community transformation initiatives. He is well-known for leading and facilitating complex regional strategies addressing economic & workforce development, healthcare modernization, large scale public land use and recreational tourism, governance reform, and cross-sector network planning for sustainable communities. Michael has delivered professional services throughout the United States and in 29 countries globally. In his “first career” Michael delivered comprehensive behavioral treatment services for individuals and families struggling with Mental Illness, Substance Use, and Serious Emotional Disturbance.
- Updates from Washington DC – HRSA Rural Partnership Development Meeting 2020
