Chyna McNeal

Canyon State Academy Medical Assistant Chyna McNeal knows what it means to be fearless. As an essential worker, she administers COVID-19 testing kits to students and staff who are symptomatic or who were exposed to COVID. Always ready to jump into action, she was the first member of staff to train on using the PCR kit. With a calm, positive attitude, McNeal reassures those apprehensive about testing; going so far as to meet staff in their cars. Facing the pandemic head-on without complaint, Medical Assistant McNeal is more than an essential staff member at CSA: she's a hero.
